4. Details of our assessment

Routine inspection of Asset. The weather conditions were drizzle at the time of the inspection.

The inspection found clear effluent was being discharged from the outlet, with no odour present. No Fungus present at the outfall.

The works appeared to consist of a settlement tank and biodisc filter, although it was not possible to understand exactly how the works operated or why it was not functioning

correctly without Carmarthenshire County Council present.

Previous CAR Form requested that: Carmarthenshire County Council must ensure their treatment works are maintained and serviced regularly to prevent issues with treatment quality.

The effluent appeared to be of an acceptable quality at the time of the inspection.
