Proposal summary

Please provide an outline of your proposal, including any sketches.

As a guide, you should include: a description of the activities which (will) take place at your site, the means of abstraction/impoundment proposed, if the proposal is related to another licence or permit (i.e. an Environmental Permit to Discharge Water) and details of any survey work undertaken. For changes to existing licences, summarise the changes proposed. Sketches or photographs that will aid our understanding of your proposal can be uploaded below.

Application for an abstraction & impoundment license for a proposed Hydropower scheme in Dare Valley. This scheme will modify the existing weir from the upper lake, which feeds into an artificial waterway (Dare River). Water will be diverted along a penstock pipe to a powerhouse at the lower lake, where it rejoins the Dare River.

Abstraction will be achieved by modifying the existing weir to include an abstraction and compensation notch (see attached drawings). A hands-off flow of 50 l/s is proposed and will be achieved by incorporating an additional V-notch in the compensation notch.

Design details match the existing abstraction and impoundment licenses (WA/057/0023/003 & WA/057/0023/006)
