## Same terms renewal

Are you applying for a same terms renewal?

Yes

Use this section to show us how you have calculated the amount of water you require. This should include details of your operational regime (for example, number of hours and days you intend to abstract, number of units produced or area to be irrigated). We use this information to determine if the volumes you propose to abstract are appropriate for the purpose. Depending which industry you are in, you may need to provide additional information below.

If your water usage has been lower than your licensed volumes, you will need to provide additional information to demonstrate your continued need for the water, for example, additional justification or a Business Case.

Further to renewal of abstraction Licence WA//065/0001/001 from site at Nant Tyddyn-yr-yn, Trawsfynydd.

The Abstraction purpose is for a Fish Farming Hatchery as per history of abstraction.

Flowmeter is fitted on abstraction line since 2009.

Forecasted abstraction between September and May Annually, and as previous licence years estimated at 20m<sup>3</sup> per day.

Trawsfynydd (approx. 1420mm per year) experiences metrologically high rainfall which rarely has an impact on water availability in the area, therefore abstraction should not have any adverse effect on hydrological factors.
