3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

You are non-compliant with your permit.

We are currently considering taking enforcement action against you for the non-compliance recorded above. We will contact you in due course.

4. Details of our assessment

Following a visit at the site, NRW requested EDM data for the site (CAR_NRW0044329). DCWW have provided the EDM data and it appears as though the asset is operating outside of permit conditions.

Condition 4. Discharge of the permit states an emergency discharge can occur in the 'event of a total power failure'. The EDM data provided states that there have been 59 spills in a period of 5 months (18/11/23 - 30/04/24). This number of spills seems excessive if the

asset is operating under permit conditions.

Action: Please investigate why the asset is discharging frequently and comply with permit conditions. Please provide a report detailing your findings and proposed actions.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:
