For changes to existing licences, summarise the changes proposed. Sketches or photographs that will aid our understanding of your proposal can be uploaded below.

The NWRT have been asked by NRW to put in works to remove the weir along the Afon Iwrch in Conwy. The purpose of the works is to remove a partial and temporal barrier to ease fish migration for salmonids to spawning grounds. The weir is approximately 5.6m long and the width of the river is approximately 6.2m wide. There is a notch on the left side of the weir which is approximately 0.6m. The weir itself is 1.4m tall from the riverbed on the downstream side. The Weir is approximately 500m upstream from the confluence with the Afon Conwy. We have an OWC consent from Conwy County Borough Council.
