Result types are explained in more detail in the 'Important Information' section below.

### 2. What action is required?

| Criteria | Action needed                                                                                                                 | Complete by |
|----------|-------------------------------------------------------------------------------------------------------------------------------|-------------|
| WR-A2    | Submit a licence application for the unlicensed groundwater abstractions by 01/12/2025 to ensure compliance with regulations. | 01/12/2025  |

Action criteria codes are listed in the 'Important Information' section below.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution or civil sanctions being imposed depending on the circumstances of the offence.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

### 4. Details of our assessment

A site visit conducted on 02/07/2025 confirmed that the licence holder, Nuclear Decommissioning Authority, operating under abstraction licence WA/065/0001/002/R001 for Trawsfynydd Lake, was fully compliant with all conditions of the licence.

Abstraction for industrial effluent dispersal was carried out using two centrifugal pumps within the authorised limits the licence. Metering and record-keeping requirements were met, with weekly readings taken and submitted annually to NRW. All abstracted water was returned to the lake as required. Returns data for the years 2015–2023 were reviewed and confirmed to be compliant.

During the site visit, it was noted that unlicensed boreholes were being used to abstract water for the purpose of lowering groundwater levels to prevent flooding on site. These abstractions require a valid licence. Please submit an application for a licence for this activity by visiting the Natural Resources Wales website at [Natural Resources Wales / Apply for a water abstraction or impoundment licence](#). An application that has the potential to be duly made must be submitted by 01/12/2025.

**ACTION: Submit a licence application for the unlicensed groundwater abstractions by 01/12/2025.**

Natural Resources Wales would like to thank the licence holder for their time onsite.

## Important information

### Legal status of this report

Your licence is issued to you under the Water Resources Act 1991 as amended by the Water Act 2003. You have a responsibility to comply with the conditions of your licence and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

| Assessment result | Description                                                       |
|-------------------|-------------------------------------------------------------------|
| Assessed (A)      | Assessed or assessed in part, no evidence of non-compliance found |
| Action only (X)   | Action only relating to the activity assessment                   |
| Ongoing (O)       | Ongoing non-compliance, not scored                                |

| Non-compliance category    | Description                                                                                                                 |
|----------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| C1 Major                   | Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property |
| C2 Significant             | Potential to have a significant impact or effect on the environment, people and/or property                                 |
| C3 Minor                   | Potential to have a minor or minimal impact or effect on the environment, people and/or property                            |
| C4 No environmental impact | Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property       |

### If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
