3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution or civil sanctions being imposed depending on the circumstances of the offence.

You are non-compliant with your licence.

We are currently considering taking enforcement action against you for the non-compliance recorded above. We will contact you in due course.

4. Details of our assessment

On 11 June 2025, a compliance assessment was carried out at Nant Colwyn Hydro Limited under abstraction licence WA/065/0005/002. At the time of the visit, the scheme was actively abstracting. A visual inspection confirmed that the scheme appeared to be constructed in accordance with approved drawings, although no measurements were taken due to high flows. Measurements of the weir should be carried out during the next site

visit.

The scheme is correctly located on the Nant Colwyn, and all returns data reviewed were compliant with the licence limits. Licence condition 9.5 could not be assessed as the scheme was not measured during this visit. The intake was fitted with an appropriate Coanda screen, and the split plate was not installed, which is compliant. All fish passes and plunge pools were found to be constructed as designed.

However, licence condition 9.7 requires that no abstraction shall take place unless a screen with spacing no greater than 10 millimetres is installed on the discharge outlet structure to prevent the entrapment, entrainment, or impingement of fish. During the visit, the screen was not in place as the gate had opened. This screen must be secured and closed at all times. The licence holder is required to close and secure the screen by 17 October 2025 and send photographic evidence of this action to sioned.w.jones@cyfoethnaturiolcymru.gov.uk.

ACTION: Secure and close the screen on the outfall structure and send photographic evidence to confirm completion by 17/10/2025.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your licence is issued to you under the Water Resources Act 1991 as amended by the Water Act 2003. You have a responsibility to comply with the conditions of your licence and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
