

Compliance Assessment Report CAR_NRW0049245

Permit being assessed: BB3096FM

For: Hoddell Farm, held by H J Price & Son

At: Kinnerton, Presteigne, Powys, LD8 2PD.

Type of assessment carried out: Site Inspection, Reason: Routine.

On 05/08/2025, between 14:00 and 15:00.

Parts of permit assessed: All

NRW Lead Officer: Ffion Jones.

Report sent to: Kevin Price, Permit holder, on 29/08/2025.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
WQ-D1 - Water Quality - Information - Records	C4 No impact	4.1.3 sheep dip disposal records

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
WQ-D1	Please ensure disposal records are kept up to date and accurate	30/08/2025

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Natural Resources Wales officer Ffion Jones attended Bryn Farm on the 5th August 2025 to undertake an unannounced inspection for the disposal of sheep dip to land under permit BB3096FM. Many thanks for your time.

Mr Price explained that he has a dip bath at Bryn Farm (owned) but does not use it as the set up at Hoddell Farm (rented) is better. The dip bath at Hoddell Farm is an underground impermeable concrete store with a capacity of approximately 1400L. The bath was constructed in 1980's. The dipping bath is roofed with 2 open aired sides and yards

surrounding dip bath draining any excess dip back into the bath. Mr Price dips 2000 ewes and lambs with Golden Fleece dip in the Autumn. Following dipping the sheep are kept on a concrete yard until they stop dripping and then into a small holding field for a few hours before being returned to the original field. The spent dip is then stored in the dipping bath until conditions are suitable for spreading. The spent dip is then diluted and tankered out onto the fields specified by the permit. Mr Price disposes of sheep dip once a year with the most recent disposal activity in Autumn 2024. Mr Price dilutes 1 part spent sheep dip to 3 part water and spread on fields specified by permit. Mr Price believes that they have a maximum of 700L of spend dip each time. The spreading zones have adequate grass cover and are appropriate distances from surface and ground waters. The disposal areas do not waterlog and does not have slopes nor drains.

Action: Please ensure all disposal records are kept as per condition 4.1.3 of the permit.

4.1.3 Records for discharges of waste sheep dip shall include:

- (a) name, address and NGR of the site where the used / waste sheep dip originated (only applies to mobile sheep dip contractors);
- (b) daily volumes of undiluted used / waste sheep dip discharged;
- (c) rates of discharge;
- (d) location and area of discharge;
- (e) nature of used dip (marketing authorisation name will suffice);
- (f) any materials added to dilute or treat the used / waste sheep dip, including water or slurry;
- (g) for multiple discharges, records demonstrating compliance with only one permitted discharge per designated area of land per year shall be kept.

Advice and Guidance:

- 1) Please ensure all unused and used dip is stored appropriately and has secondary containment for any potential leaks.
- 2) Please ensure that sheep are kept away from any watercourses for as long as possible.

Please see below guidance for groundwater protection.

[Sheep dip: groundwater protection code - GOV.UK](https://www.gov.uk/guidance/sheep-dip-groundwater-protection)

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.

Full list of water quality action criteria (used in section 1 and 2):**WQ A: Management**

- WQ-A1 General management

WQ B: Operations

- WQ-B1 Permitted activities
- WQ-B2 The site
- WQ-B3 Operating techniques
- WQ-B4 Improvement programme
- WQ-B5 Pre-operational conditions

WQ C: Emissions and monitoring

- WQ-C1 Emissions to water
- WQ-C2 Emissions to land
- WQ-C3 Emissions of substances not controlled by emission limits
- WQ-C4 Installation of monitoring boreholes

WQ D: Information

- WQ-D1 Records
- WQ-D2 Reporting
- WQ-D3 Notifications

Enforcement response

Any permit condition non-compliance is an offence and we may take legal action against you. Action we take can include prosecution, serving a notice on you and/or suspension or revocation of your permit. See our Enforcement and Sanctions Guidance for further information.

Data protection notice

You should make sure that anyone named in this report knows that the information it contains will be processed by Natural Resources Wales to fulfil its regulatory and monitoring functions and to maintain the relevant public register(s).

We may also use and/or disclose the report in connection with:

- offering or providing you with our literature or services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law
- assessing customer service satisfaction and improving our service
- Freedom of Information Act or Environmental Information Regulations requests.

We may also pass it on to our agents or representatives to do these things on our behalf.

Disclosure of information – this report will be available to view on-line

If you think this report contains commercially confidential information that should not be placed on our public register, you must contact your local Natural Resources Wales office within **fifteen working days** of receiving this report, using the contact details in the accompanying email or letter. You must give a full explanation of why it should not be

added to our public register, including specifying which information is commercially confidential. We will assess your request and respond to you within 20 working days to let you know if we agree to your request.

What do I do if I disagree with the report or have a complaint?

If you disagree with this compliance assessment report, you should contact the lead officer without delay to discuss your concerns.

If you are unable to resolve the issue with the lead officer or their line manager you should contact our Customer Contact team on 0300 065 3000 (Monday to Friday 08:00 – 18:00), or email enquiries@naturalresourceswales.gov.uk for details of how to raise your dispute further through our Complaints and Commendations procedure.

If you are dissatisfied with our response, you can contact the Public Services Ombudsman for Wales by phone on 0300 7900203 or by email at ask@ombudsman.wales

Welsh Language Standards

We are committed to establishing Natural Resources Wales as a naturally bilingual organisation. We will provide compliance reports in your preferred language.
