

Apply to discharge condition(s) and/or monitoring approvals required by your marine licence

Who is completing this form?

| |
|--------------------------------------|
| Indicate who is completing this form |
| Licence holder |

Your project

| |
|--|
| What is the name of your project? |
| Marine Energy Test Area (META) Phase 2 Sites |

| |
|---|
| Give us your marine licence reference number (this can be found on the front of your marine licence): |
| ORML1957v2 |

Licence holder details

| | |
|--|------------------------------------|
| Please complete the licence holder details | |
| First name: | Saul |
| Last name: | Young |
| Position in company: | META Operations Manager |
| Company or trading name: | Pembrokeshire Coastal Forum (CiC) |
| Telephone number: | 07460740165 |
| Email: | saul.young@marineenergywales.co.uk |

Agent details:

| |
|--|
| Does the licence holder wish to be included in all correspondence? |
| Yes |

List the condition(s) of your marine licence

List the condition(s) of your marine licence that you are looking to discharge, including any monitoring reports. Please include the condition number and condition text.

We are submitting an update to previously approved documentation. Including updated:

- Device Specific Navigational Risk Assessment (NRA) (Condition 3.15)
- Device Specific EMP (Condition 3.20)
- Pre-deployment Monitoring Plan Report (Condition 3.29)
- Device Installation and Operation Method Statement (DIOMS) (Condition 3.30)
- Device Specific ERCoP (Developer Information Document) (Condition3.17)

Please provide a description of your request e.g. Construction Environment Management Plan submitted for approval prior to commencement of works/ submission of annual monitoring report for approval

This is a request for approval of updates/changes to previously approved documents.

Under ORML1957v2 a floating tidal energy device was approved in April 2025 for testing at the META Warrior Way test site. The documents approved for this deployment are listed below:

- META CGEN Device Specific Navigational Risk Assessment (NRA) (Condition 3.15)
- META CGEN Device Specific EMP (Condition 3.20)
- META CGEN Pre-deployment Monitoring Plan Report (Condition 3.29)
- META CGEN Device Installation and Operation Method Statement (DIOMS) (Condition 3.30)
- META CGEN Device Specific ERCoP DID (Developer Information Document) (Condition3.17)

META would like to redeploy this device with the following changes:

- New deployment dates (10th November – 12th December 2025)
- Reduced turbine diameter from 3m to 1.3m
- Change the agents involved from Swansea University and C-GEN Engineering to Gul Corp and N-Prime.

Everything else previously approved e.g. the location, floating platform, mooring system, methods, navigational risk controls and marine contractors will remain the same as per the approved documents and we will ensure we comply with conditions already received from MHPA, Trinity House and the MCA when they were originally consulted on the deployment of this device.

An addendum is provided that clearly summarises the changes made to the approved documents. Within the updated documents any changes are highlighted in yellow so they can be referred to easily, plus in the version control table at the start of each document there is a description of updates. CGEN has been removed from the document titles as they are no longer involved.

The aim is to redeploy the floating tidal energy device and its moorings on 10th November 2025 and then fully recover the device and moorings on 12th December 2025.

Public Register

We will normally put all the information in your submission on a public register unless NRW approve of the reasons for withholding all or part.

Do you consider any of the information provided should not be placed on the public register for reasons of being commercially sensitive or in the interest of National Security?

No

Application fee

Does your submission contain monitoring related work? This could include looking to get approval for monitoring specification prior to commencement of monitoring work, or submission of monitoring reports for approval. All requests including monitoring work packages will be charged at an hourly rate and invoiced in arrears.

No

Application fee part 2

Is your application related to a band 3 licence?

If you are unsure please review you application form or contact the Marine Licensing Team at marinelicensing@cyfoethnaturiolcymru.gov.uk (opens in new tab) – for all band 3 licences you will be charged at an hourly rate and invoiced in arrears.

Yes

Payment Details for Discharge of conditions of a Band 3 licence and/or any request associated with monitoring approval

For all Band 3 Licenses as well as conditions associated within monitoring work packages, you will be charged at an hourly rate and invoiced in arrears. Please provide your invoicing details:

Purchase order number: META_Updated Floating Tidal Device
Invoice to be marked for the attention of: Saul Young
Customer name: Pembrokeshire Coastal Forum CiC
Address for invoice: 2nd Floor, Pier House,
Pembroke Dock
Postcode: Pembrokeshire
SA72 6TR
Telephone: 07944839332
Mobile: 07944839332
Email: saul.young@marineenergywales.co.uk

Declaration by licence holder

Applications cannot be processed unless signed by the licence holder (not agent), the applicant must have appropriate level of authority within the company. Applications will not be processed unless signed.

Complete declaration name and date

First name: Saul
Last name: Young
Position in company: Operations Manager
Date (DD/MM/YYYY): 29/09/2025

I declare that to the best of my knowledge and belief that the information given in this application form and supporting documentation is true.

WARNING: It is an offence under the Marine and Coastal Access Act 2009, to fail to disclose information or to provide false or misleading information.
