**NRW Lead Officer:** Shaun Rees.

**Report sent to:** Mr Daniel Beaumont, Operator, on 04/09/2025.

### 1. Summary of our findings (full details in section 4)

| Part of permitted activity assessed (compliance criteria) | Assessment result | Permit condition |
|-----------------------------------------------------------|-------------------|------------------|
| IR1A - Installations - Management - General Management    | Assessed (A)      |                  |

Result types are explained in more detail in the 'Important Information' section below.

| Total non-compliances recorded | Total non-compliance score |
|--------------------------------|----------------------------|
| 0                              | 0                          |

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

### 2. What action is required?

No action required.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

## 4. Details of our assessment

Natural Resources Wales officer Shaun Rees met with Mr Beamond to carry out a routine audit of the site on the 18 August 2025 at 10:30.

You will be happy to hear that no non compliances were identified on our visit.

During the audit, discussions around manure storage took place and the site/drainage plan, please see below a link to assist you in a minor variation to the permit.

[Natural Resources Wales / Apply to vary \(change\) a permit for installations](#)

The following forms will need to be completed: A, F, C2 and C3, guidance is available on the above link.

Unfortunately, the forms cannot be completed online and will need to be completed and returned via email to [permitreceiptcentre@cyfoethnaturiolcymru.gov.uk](mailto:permitreceiptcentre@cyfoethnaturiolcymru.gov.uk)

The minor technical permit variation has a charge of £2,774 - please see Environmental Charging scheme 25/26 - Table F9A for more information on charging [FINAL Environmental Permitting Charging Scheme 2025-26 CLEAN ACCESSIBLE](#)

The variation is likely to take between 12-18 months.

Due to the cost incurred in varying the permit, I would highly advise you ensure the permit is accurate and submit all changes in the same application.

Thank you again for your time during the audit.

***In this document 'Natural Resources Wales' means the Natural Resources Body for Wales established by Article 3 of the Natural Resources Body for Wales (Establishment) order 2012.***

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

| Assessment result | Description                                                       |
|-------------------|-------------------------------------------------------------------|
| Assessed (A)      | Assessed or assessed in part, no evidence of non-compliance found |
| Action only (X)   | Action only relating to the activity assessment                   |
| Ongoing (O)       | Ongoing non-compliance, not scored                                |

| Non-compliance category    | Description                                                                                                                 | Score |
|----------------------------|-----------------------------------------------------------------------------------------------------------------------------|-------|
| C1 Major                   | Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property | 60    |
| C2 Significant             | Potential to have a significant impact or effect on the environment, people and/or property                                 | 31    |
| C3 Minor                   | Potential to have a minor or minimal impact or effect on the environment, people and/or property                            | 4     |
| C4 No environmental impact | Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property       | 0.1   |

### How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

**If your assessment result in Section 1 is suspended, what does this mean?**

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
