4. Details of our assessment

On 02 September 2025 we received a report from an NRW officer of fuel odour at the discharge point for Gwynfe WWTW. This was found to be originating from Gwynfe WWTW where fuel had entered the works. DCWW were unable to identify the source and we agreed that the responsibility of this incident was that of a third party.

This CAR form is to reflect that no non-compliances have been recorded as a result of this incident. It should be noted that our CAR_NRW0048763 detailed compliance issues that are still outstanding and are recorded separately in that report.
