Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On the 2nd September 2025 NRW officers carried out an inspection of the permit.

The package treatment plant was operational and no odours apparent. Officers were unable to inspect the discharge and monitoring points as specified in S3.2 and S.3.3 of the permit as the area was overgrown and had not been maintained. This is a **CCS3** breach of permit condition 3.3.

Action required

Please ensure that there is a permanent means of access to the discharge point to enable future monitoring and inspection. This should be done by **03/11/2025**

Provide records of when the treatment plant was last emptied and maintained. This should be sent by **15/10/2025**

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.
