Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
A1 - Specified by permit	A	
B3 - Infrastructure - Site drainage engineering (clean and foul)	A	
D1 - Incident Management - Site security	A	
G4 - Monitoring and Records, Maintenance and Reporting - Reporting and notification to Natural Resources Wales	A	

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.
A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,
O = Ongoing non-compliance, not scored.

Number of breaches recorded	**0**	**Total compliance score** (see section 5 for scoring scheme)	0

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

Officers Jonathan LEE and David WARWICK-BROWN in attendance of Waungron Road HWRC, Cardiff to complete a final compliance inspection of the environmental permit EPR-VP3999FM. Weather was sunny and dry at the time of the inspection. Officers met with Cardiff Council staff members on site.

Given the non-operational status of the facility, the inspection was made to discuss the surrender of the environmental permit and complete a final inspection of the permitted area.

Inspection

The site was non-operational at the time of the inspection and has been for several years. There were no waste(s) or machinery present within the permitted area.

It was evident that a portion of the site has been extensively excavated following the identification of some hydrocarbon contamination present in pockets of the ground on site. A report for the excavation works was reviewed prior to the site inspection. This report demonstrated that the pockets of hydrocarbon contamination previously present on site have been removed and that the excavated materials replaced with clean engineering fill.

The surfaces of the site were in good condition. No ongoing pollution risk to ground or water was identifiable at time of inspection.

Outstanding quarterly waste returns have been submitted since the previous inspection. Thank you for rectifying this previous non-compliance.

No permit breaches were identified during the inspection.

After the inspection photographic evidence was supplied demonstrating that the all wind-blown litter had been removed from site. Thank you for completing this previous action point.

Permit Surrender

With consideration of the inspection observations and having reviewed historical site information, it is recommended that a **low risk surrender** application be submitted to Natural Resources Wales.

Application forms Parts A, E2, F1 and CC1 should be submitted alongside a H5 Site Condition Report completed in line with the H5 Guidance as part of the surrender application.

Summary

If you have any queries regarding this Compliance Assessment Report or the permit surrender application please contact regulatory officer Jonathan Lee on 0300 065 3908, or via email at jonathan.lee@naturalresourceswales.gov.uk

In this document 'Natural Resources Wales' means the Natural Resources Body for Wales established by Article 3 of the Natural Resources Body for Wales (Establishment) order.

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition.
Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Other than the provision of advice and guidance, at present we do not intend to take further enforcement action in respect of the non-compliance identified above. This does not preclude us from taking enforcement action if further relevant information comes to light or advice isn't followed.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

See Section 1 above			

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply
