Ein cyf/Our ref. CG0388201
Dyddiad/Date: 20th January 2006

Mr H Evans
Gwalia Garage
Caeathro
Gwynedd
Caernarfon
LL55 2SS

Dear Mr Evans

WATER RESOURCES ACT 1991 SCHEDULE 10 (AS AMENDED BY THE ENVIRONMENT ACT 1995) APPLICATION FOR VARIATION OF CONSENT TO DISCHARGE TRADE EFFLUENT CONSISTING OF SITE DRAINAGE FROM PREMISES AT GWALIA GARAGE, CAEATHRO, GWYNEDD, CAERNARFON, LL55 2SS

Please find enclosed the Consent to discharge under Schedule 10 of the Water Resources Act 1991 (as amended by the Environment Act 1995), in respect of your application received on 20TH October 2005. You are now the holder of this Consent and should ensure that the conditions of the Consent are complied with at all times.

Should you be dissatisfied with the conditions specified in the Consent, you may appeal to the Secretary of State within three months of its issue.

This Consent is an important document. The right to discharge effluent may be valuable to you. The document should be kept safe, probably with the Deeds of the property where appropriate.

Please take careful note that if the holder of the consent changes, you should inform the Agency **IN WRITING** as soon as possible of the name of the new holder (certificate and transfer form attached). This is to ensure that the rights and charges associated with the Consent are transferred to the new holder. If you do not inform us of the change within 21 days, an offence will have been committed that may result in prosecution.

Where the holder dies or is served with a bankruptcy order, different rules and timescales govern these changes. In these situations, the executors or trustees should contact the Agency promptly for further guidance.

If you want to revoke (cancel), or vary (change/amend) the Consent in any way, please contact the Agency. Similarly, if you change your contact address while continuing to hold the Consent, please contact the Agency.

The Agency has adopted a scheme whereby all consented discharges, except those of sewage effluent of 5 cubic meters per day or less, will be subject to an annual charge. You may well have received a booklet outlining the scale of charges but if not, they are available from the office below. The current level of charges runs until March 1997 at which time it may be reviewed.

Under the current scheme this consented discharge is exempt from being charged will attract an annual charge from the start of the discharge. For discharges that have not yet started please can you notify us, within 28 days of the date of this letter, that the discharge has not yet begun and give an approximate date of commencement.

This Consent covers water quality considerations only. It does not give any right or permission to discharge where land is not owned by the applicant. In addition, for discharges to watercourse, it does not imply the suitability, with regard to volumetric capacity, of the receiving watercourses. It is the responsibility of the applicant to identify and negotiate, with the riparian owners as necessary, any requirement for downstream improvement works. Failure to do so could result in a Common Law action by the riparian owner.

Please ensure that the sample point for this discharge is maintained so that it is accessible to officers of the Agency and that a direct sample of the effluent may be readily and safely taken at all times.

Details of this Consent, and associated application, are placed on a public register, kept by the Agency and open for inspection by the public. If you have any queries regarding the enforcement of this consent, please do not hesitate to contact Iwan Williams, Team Leader Environment Management, Environment Agency Wales, Llwyn Brain, Ffordd Penlan, Parc Menai, Bangor, Gwynedd, LL57 4DE

Yours sincerely

Vicky Matthews

Consent to Discharge

Water Resources Act 1991
Section 88, Schedule 10
(as amended by the
Environment Act 1995)

Variation of Consent to Discharge

Consent Number CG0388201

To: **Mr H. Evans** ("the Consent Holder")
Gwalia Garage
Caeathro
Caernarfon
Gwynedd
LL55 2SS

In pursuance of an application by the Consent Holder for a variation of consent, the Environment Agency ("the Agency") in pursuance of its powers under the Water Resources Act 1991 (as amended by the Environment Act 1995) and the Groundwater Regulations 1998, hereby varies its consent to the making of a discharge:

With respect to Consent No. CG0388201 issued on 25th September 2000

Of:
Trade effluent consisting of site drainage ("the Discharge")

From:
The garage and shop

At:
Gwalia Garage

To:
Afon Beuno

Subject to the conditions set out in this notice of Consent to Discharge.

Subject to the provisions of Paragraphs 7 and 8 of Schedule 10 of the Water Resources Act 1991 (as amended by the Environment Act 1995), no notice shall be served by the Agency, altering this consent, without the agreement of the Consent Holder, during a period of 4 years from the date this notice is issued.

This Consent is issued on: 20th January 2006

This Consent takes effect on: 20th January 2006

Signed

Iwan Williams
Team Leader Regulatory (Water Quality)

1 Conditions of Consent for trade effluent consisting of site drainage

1.1 Nature

1.1.1 The Discharge shall consist solely of trade effluent consisting of site drainage.

1.2 Place of Discharge

1.2.1

The Discharge shall be made in the manner and at the place specified as:

- a discharging to Afon Beuno;
- b at National Grid Reference SH 50210 61460;
- c shown marked "OUTLET" on Site Plan attached to this consent.

1.3 Sampling Point Requirements

A sample point shall be provided and maintained at National Grid Reference SH 50250 61468 as shown marked "SAMPLE POINT" on the Site Plan attached to this consent, so that a representative sample of the Discharge may be obtained. The Consent Holder shall ensure that all constituents of the Discharge pass through the said sampling point at all times and in any legal proceedings it shall, for the purposes of Section 10 of the Rivers (Prevention of Pollution) Act 1961, be presumed, until the contrary is shown that any sample of the Discharge taken at the said sampling point is a sample of what was discharging into controlled waters.

1.4 Composition

1.4.1

- a The Discharge shall not contain more than 50 milligrammes per litre of suspended solids (measured after drying at 105°C).
- b The Discharge shall not contain more than 15 milligrammes per litre of oil and grease

1.5 Works Operation

1.5.1

- a The plant shall be operated and the effluent treated in a manner which, so far as reasonably practicable, minimises the polluting effects of the Discharge on controlled waters.
- b This condition does not require any alteration of the type of treatment used from that specified in the application.

1.6 Maintenance

1.6.1

The plant shall be operated and maintained in accordance with good operational practice such that:

- a it remains fully operational except at times of unavoidable mechanical or electrical breakdown which shall be attended to, and the Agency informed of the failure, as soon as practicable after the failure;

Amgylchedd Cymru
Environment
Agency Wales

- b** following a failure all equipment shall be returned to normal operation as soon as practicable;
- c** it shall be desludged at sufficient frequency and in such a manner to prevent excessive carryover of suspended solids.

1.7

Recording and Reporting

1.7.1

- a** The Consent Holder shall establish and operate a documented maintenance programme and record all non-routine actions undertaken that may have adversely affected effluent quality. Copies of the programme shall be made available for inspection by the Agency's officers at all reasonable times.
- b** On request the Consent Holder shall supply the Agency with a written report on the maintenance and all non-routine actions that may have adversely affected effluent quality
- c** The Consent Holder shall as soon as reasonably practicable report to the Agency all non-routine actions that may have adversely affected effluent quality.
