4. Details of our assessment

Natural Resources Wales Officer Shaun Rees attended Sheppards Barns, Moors Farm on the 13 October 2025 at 10:25 to carry out an inspection in relation to this permit number.

During the inspection I was shown around the treatment system by Mr Slack, and i could see that the plant itself was very well maintained.

Mr Slack stated that his receptionist was away, who had access to all the files relating to the plant, and would request her to send them to me on her return.

I left the site and inspected the outfall, which was visible sound and could see no impact on the receiving waters.

On the 16 October 2025 i received some records regarding the maintenance of the treatment plant, but no Written Environment management system.

Non-Compliances (recorded in summary) Actions to be addressed –

1.1 General Management

1.1.1 The operator shall manage and operate the activities:

(a) in accordance with a written management system that identifies and minimises risks of pollution, including those arising from operations, maintenance, accidents, incidents, non-conformances and those drawn to the attention of the operator as a result of complaints;

Please produce a written management plan and provide a copy of it to NRW by the 20 November 2025

4.1.2 Records

4.1.2 The operator shall keep on site all records, plans and the management system required to be maintained by this permit, unless otherwise agreed in writing by the Environment Agency.

Please produce a written management plan and provide a copy of it to NRW by the 20 November 2025

[Natural Resources Wales / Develop an Environment Management System for the discharge of up to 20 cubic metres per day of sewage effluent](#)

Thank you for your time during the inspection.

In this document 'Natural Resources Wales' means the Natural Resources Body for Wales established by Article 3 of the Natural Resources Body for Wales (Establishment) order 2012.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
