

Schedule 5 - Notification

These pages outline the information that the

operator must provide.

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the EP Regulations.

Part A

Permit Number	BV0759
Name of operator	CELSA Manufacturing (UK) Ltd
Location of Facility	CELSA Manufacturing, East Moors Rd, Cardiff, CF24 5EU
Time and date of the detection	03/04/2023

(a) Notification requirements for any malfunction, breakdown or failure of equipment or techniques, accident, or emission of a substance not controlled by an emission limit which has caused, is causing or may cause significant pollution	
To be notified within 24 hours of detection	
Date and time of the event	03/04/2023
Reference or description of the location of the event	Effluent from a flooding cellar was pumped outside of the building and on to the ground outside of the mill.
Description of where any release into the environment took place	Release of effluent into embankment.
Substances(s) potentially released	Metal and oil residues that may have been present in the cellar prior to flooding.
Best estimate of the quantity or rate of release of substances	Unknown
Measures taken, or intended to be taken, to stop any emission /	Investigation to be carried out by operational team.

Description of the failure or accident.	Flooding caused by a drain blockage caused the water table to rise and flood a cellar, presenting a safety hazard to personnel in the area. An extraction pipe was run through the cellar and out onto the internal road outside to mitigate the immediate health and safety. The water pumped out of the cellar was not contained at the time of the incident.
---	---

(b) Notification requirements for the breach of a limit	
To be notified within 24 hours of detection unless otherwise specified below	
Emission point reference/ source	
Parameter(s)	
Limit	
Measured value and uncertainty	
Date and Time of Monitoring	
Measures taken, or intended to be taken, to stop the emission	

Time periods for notification following detection of a breach of a limit	
Parameter	Notification period
(c) Notification requirements for the detection of any significant adverse environmental effect	
To be notified within 24 hours of detection	
Description of where the effect on the environment was detected	
Substances(s) detected
