PERMIT INSPECTION

This report details the site visit made on the 14th October 2025 to MJ Rubbish Removals located at Star Trading Estate, Ponthir, Newport, NP18 1PQ under permit number, EPR- DB3195CL. Natural Resources Wales (NRW) Waste Regulation Officers Cerys PHILLIPS, and Mark O'GORMAN attended the MJ Rubbish Removals facility for an unannounced site inspection at 11:10am where they met with Matt JEAVONS (Director). The weather was dry and overcast.

The site benefits from concrete impermeable pavement which appeared to be in good condition during the time of inspection. There were no offensive odours and / or noises witnessed during the site inspection.

On site, waste is hand sorted from skips into separate piles/skips of segregated waste. This waste is then taken to larger permitted sites for disposal.

Housekeeping on site was generally good with no litter leaving the permit boundary.

During the visit, NRW officers advised the operator to ensure that waste returns for the previous quarter are submitted before the October 31st deadline.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score

C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
