

Permit Number: AB3096CP

Operator: Welsh Water Organic Energy (Cardiff) Limited

Facility: Lamby Way Open Windrow Composting Facility

Form Number: Air1 / 27/04/2021

Reporting of emissions to air for the period from 01/01/2024 to 31/12/2024

Emission							
Emission Point	Substance / Parameter	Limit Value	Reference Period	Result ^[1]	Test Method ^[2]	Sample Date and Times ^[3]	Uncertainty ^[4]
A1	Hydrogen Sulphide (H ₂ S)	No limit	Every 6 months ^[5]	N/A	BS EN 14791		
A1	Ammonia (NH ₃)	20 mg/Nm ³	Every 6 months ^[5]	N/A	US EPA Method 11 (Impinger method) or CEN TS 13649 (Charcoal tube), US EPA Method 15		
A1	Odour	1000 ouE/Nm ³	Every 6 months ^[5]	N/A	BS EN 13725		

[1] The result given is the maximum value (or the minimum value in the case of a limit that is expressed as a minimum) obtained during the reporting period, expressed in the same terms as the emission limit value. Where the emission limit value is expressed as a range, the result is given as the 'minimum – maximum' measured values.

[2] Where an internationally recognised standard test method is used the reference, number is given. Where another method that has been formally agreed with Natural Resources Wales is used, then the appropriate identifier is given. In other cases, the principal technique is stated, for example gas chromatography.

[3] For non-continuous measurements the date and time of the sample that produced the result is given. For continuous measurements the percentage of the process operating time covered by the result is given.

[4] The uncertainty associated with the quoted result at the 95% confidence interval, unless otherwise stated.

[5] The monitoring of NH₃ and H₂S can be used as an alternative to the monitoring of the odour concentration. The monitoring parameters for the biofilter are to be agreed with NRW following completion of pre-operational measure 2.

Permit Number: AB3096CP

Operator: Welsh Water Organic Energy (Cardiff) Limited

Facility: Lamby Way Open Windrow Composting Facility

Form Number: Sewer1 / 17/08/2022

Reporting of emissions to sewer for the period from 01/01/2024 to 31/12/2024 effective from 17 August 2022

Emission Point	Substance / Parameter	Emission		Reference Period	Result ^[1]	Test Method ^[2]	Sample Date and Times ^[3]	Uncertainty ^[4]
		Limit Value						
S1	To be agreed with NRW upon completion of IC2 ^[5]	To be agreed with NRW upon completion of IC2 ^[5]		To be agreed with NRW upon completion of IC2 ^[5]		To be agreed with NRW upon completion of IC2 ^[5]		

- [1] The result given is the maximum value (or the minimum value in the case of a limit that is expressed as a minimum) obtained during the reporting period, expressed in the same terms as the emission limit value. Where the emission limit value is expressed as a range, the result is given as the 'minimum – maximum' measured values.
- [2] Where an internationally recognised standard test method is used the reference, number is given. Where another method that has been formally agreed with Natural Resources Wales is used, then the appropriate identifier is given. In other cases, the principal technique is stated, for example gas chromatography.
- [3] For non-continuous measurements the date and time of the sample that produced the result is given. For continuous measurements the percentage of the process operating time covered by the result is given.
- [4] The uncertainty associated with the quoted result at the 95% confidence interval, unless otherwise stated.
- [5] The monitoring of parameters and limits to be set are to be agreed if substances are identified as relevant following completion of the wastewater inventory required by BAT 3 of the Waste Treatment BREF Document (EU 2018), to be provided as part response to IC 2.

Date.....30/01/2025.....

Permit Number: AB3096CP

Operator: Welsh Water Organic Energy (Cardiff) Limited

Facility: Lamby Way Open Windrow Composting Facility

Form Number: WaterUsage1 / 24/06/2016

Reporting of Water Usage for the year 2024

Water Source	Usage (m ³ /year)	Specific Usage (m ³ /unit output)
Mains water	349	
Site borehole	N/A	
River abstraction	N/A	
TOTAL WATER USAGE	349	

Operator's comments:

This is the first full year of water meter readings for the site.

Date.....30/01/2025.....

Permit Number: AB3096CP

Operator: Welsh Water Organic Energy (Cardiff) Limited

Facility: Lamby Way Open Windrow Composting Facility

Form Number: Energy1 / 24/06/2016

Reporting of Energy Usage for the year 2024

Energy Source	Energy Usage Quantity	Primary Energy (MWh)	Specific Usage (MWh/unit output)
Electricity *	20.48 MWh	49.15 MWh*	n/a one meter supplying all of site. Mainly used for supplying welfare facilities.
Natural Gas	N/A	N/A	N/A
Gas Oil	84.80 tonnes	986.17 MWh	0.0461 MWh / t
Recovered Fuel Oil	N/A	N/A	N/A
TOTAL	105.28	1,035.32	

* Conversion factor for delivered electricity to primary energy = 2.4

Operator's comments:
 Electricity is used to power the office, welfare, outside lighting and the fuel dispenser on site
 There is no gas supply to the site

Gas oil 95,276 litres x 0.00089 = 84.80 tonnes (1 litre of fuel oil is equivalent 0.00089 tonnes)
 Conversion factor for Gas Oil tonnes to primary energy = 11.63

Specific usage: 986.17MWh / 21,380.91 tonnes = 0.0461 MWh / t

Date.....30/01/2025.....

Permit Number: AB3096CP

Operator: Welsh Water Organic Energy (Cardiff) Limited

Facility: Lamby Way Open Windrow Composting Facility

Form Number: Performance1 / 17/08/2022

Reporting of other performance indicators for the period 01/01/2024 to 31/12/2024 effective from 17 August 2022

Parameter	Units
Total amount of compost produced	10,339.18 tonnes
Total amounts of waste treated	21,380.91 tonnes
Total raw material used	0 tonnes
Generation of residues	1,336.56 tonnes
Generation of wastewater	9,201m ³

Operator's comments:

The site had the PAS100 certificate renewed in October 2024
Residues consist of 99.74 tonnes of reject, 109.34 tonnes process reject and 1,127.48 tonnes of oversize.
Oversize has been transferred off site this year for cleaning and processing through the open windrow process at an alternative facility.
Wastewater generation is all water from the site including rainwater.
