4. Details of our assessment

This CAR form relates to the discharge in an emergency permit for Bro Elidir STW.

Thank you for your co-operation during the visit.

The site was visited on a particularly wet morning.

Access could not be gained into the works compound due to the absence of a key for the gate. So the inspection consisted of looking through the site fence and checking on the discharge to the stream.

Emissions to water:

There appeared to be two potential discharge points for this sewage works.

Action: Please confirm which pipe the emergency discharge would come out of.

Timescale: By 19/12/2025 please.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.
