9 December 2025

Dear permit holder,

## Changes to Natural Resources Wales Standard Rule Permit

Permit reference: EPR/CB3395CX

Permit holder: Ystum Colwyn Farms Limited

Facility reference: Ystum Colwyn Anaerobic Digestion Plant

Rule set held: SR2023 No1: On-farm anaerobic digestions facility using farm wastes only, including use of the resultant biogas

### What's happening?

Following our Standard Rule Permit (SRP) consultation held from 10 July to 10 October 2025 we have made changes to the SRP (environmental permit) you hold.

From the 11 December 2025 the SRP, SR2023 No1: On-farm anaerobic digestions facility using farm wastes only, including use of the resultant biogas will no longer be available to new applicants.

The amended SRP is available on our website. As an existing permit holder of the affected permit the amended conditions come into effect three months from the publication date, 11 December 2025.

### What do you need to do?

You need to look at the SRP and accompanying generic risk assessment on our website to ensure you can comply with the conditions and requirements.

Look at our '*Response to consultation on proposed changes to standard rule permits*' document on our website for more information about the changes to your SRP.

What if I *can* comply with the new conditions?

If you can comply (carry out your activity) in line with the new conditions, you need to:

- Go to our website any time and download the SRP and accompanying generic risk assessment
- Make sure that you are operating in line with the SRP

What if I *can't* comply with the new conditions?

If you know, or are not sure, whether you can comply with the new conditions, **please talk to your compliance officer as soon as possible.**

You may need a bespoke environmental permit. There is more information on how to get this on our website. We can also offer you help as part of our pre-application advice service.

*Please remember, it is your responsibility to make sure you have the right type of permit for your activity.*

For copies for the SRP and accompanying generic risk assessments please visit
