(authorised to sign as representative of the Operator)

Notes are on reverse of form.

Form Number: A1

Permit Reference Number: BV0767IT
Operator: CELSA Manufacturing (UK) Ltd
Installation: Cardiff Medium Section Mill

Notes:

[1]The result given is the maximum value (or the minimum value in the case of a limit that is expressed as a minimum) obtained during the reporting period, expressed in the same terms as the emission limit value. Where the emission limit value is expressed as a range, the result is given as the 'minimum – maximum' measured values.

[2]Where an internationally recognised standard test method is used the reference number is given. Where another method that has been formally agreed with the Agency is used, then the appropriate identifier is given. In other cases the principal technique is stated, e.g. gas chromatography.

[3]For non-continuous measurements the date and time of the sample that produced the result is given. For continuous measurements the percentage of the process operating time covered by the result is given.

[4]The accreditation status of the equipment and/or the monitoring organisation, as appropriate, for the methods used for both sampling and analysis.

[5]The uncertainty associated with the quoted result at the 95% confidence interval, unless otherwise stated.

* UKAS Accreditation Held but UKAS Accreditation cannot be claimed for the test as sampling did not comply with the Standard Reference Method (SRM)
