Our ref: PAN-011960
Your ref:

Date: 18 November 2020

Dear Sir/Madam,

We need more information about your application

Application reference: EPR/ZP3933NJ

Applicant: The Treatment Hub Limited

Facility: The Treatment Hub, Building 2, Westfield Industrial Park, Swansea, SA5 4SF

Further to the application documents received on 28 October 2020, and the telephone conversation yesterday with Philip Rees, unfortunately I need to ask you for some more details before I can decide whether it's duly made or not.

Please would you provide us with more information as detailed below:

- 1 Please re-submit the application forms referencing the correct version of the supporting document.
- 2 Please explain, including technical detail, how the treatment processes will work and produce the stated intended results, for each waste type to be received and for each waste type to be used to benefit the process (In Table 2 of the permit variation supporting document, you list waste streams to be beneficial to the treatment process, however in the supporting document you have only provided additional detail for one of these).

Please reply within 20 working days from the date of this letter. If we don't hear from you we may return your application. Alternatively you may wish to withdraw the application and request return of the application fee.

If you email or write to us please quote the application reference on any correspondence and send it to the relevant address.

When we receive the requested information, we will continue to check the details in your application. If there's enough for us to begin the process of deciding whether or not we can grant your application we say the application is 'duly made' and we'll let you know this by letter.

If you have any questions please contact me.

Yours sincerely

Paul Williams
Senior Officer, Installations and RSR Permitting
