16 December 2025

Dear Mr. Skitt,

Failure to comply with a Regulation 36 Notice: Frongoch ELV site, Trisant, Ceredigion.

The enclosed Warning Letter has been issued as you failed to comply with a Regulation 36 notice issued to you on 16 January 2025, requiring you to, *“Appoint a suitably qualified Technically Competent Manager and provide a copy of their Technical Competence Qualification and, where relevant, their current Continuing Competency certificate.”* by 7th April 2025.

At a meeting with you, at your home address, on 8th April 2025, to review compliance with the Regulation 36 notice, you failed to provide details of a suitably qualified manager as required. You stated that the person you had appointed for this role would contact me the following day, but they failed to do so and when I contacted you to ask why they hadn't, you said they needed my contact details. At a pre-arranged compliance visit at your site on 8th May 2025 I still had not been contacted by your competent manager and therefore it was determined that this was the date when you had failed to comply with the Regulation 36 notice, which is an offence under the Environmental Permitting Regulations 2016.

I would like to acknowledge that you are now compliant with this requirement but please note, this is a separate matter to the Regulation 36 notice that you have just been issued. If you have any queries about the content of this letter, or the Warning Letter, please contact me using the details below.

Yours sincerely

Malcolm Dines
Waste Regulation Officer
