Same terms renewal

Are you applying for a same terms renewal?

Yes

Use this section to show us how you have calculated the amount of water you require. This should include details of your operational regime (for example, number of hours and days you intend to abstract, number of units produced or area to be irrigated). We use this information to determine if the volumes you propose to abstract are appropriate for the purpose. Depending which industry you are in, you may need to provide additional information below.

If your water usage has been lower than your licensed volumes, you will need to provide additional information to demonstrate your continued need for the water, for example, additional justification or a Business Case.

These are very small micro-hydro schemes run by a not-for-profit community Co-operative. We require no changes to the previous licences as we do not wish to change the volumes of water or any other measurements which we were allowed to abstract when the initial licences were issued. The application is to extend the previously-agreed volumes etc. for another period.
