Introductory note

This introductory note does not form a part of the notice

The following gives notice of the variation of an environmental permit.

Conditions have been included as a result of a regulator initiated change. The conditions reflect that the landfill site is no longer accepting wastes for disposal, and will be operated and maintained in accordance with the agreed closure plan during the aftercare phase.

The permit boundary has been amended to reflect that of the site's planning permission – with regard to the restoration area of the site.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
