### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

### 4. Details of our assessment

NRW were notified of an pH failure by DCWW at Penley Wwtw on the 9/9/25

The OSM sample was taken on the 5/9/25 with a pH result of 4.7 (permit limit is between 5-9)

On the 5/9/25 email notification was received stating that an OSM exceptional circumstances report (ECR) was going to be submitted

The ECR was received by NRW on the 24/11/25.

NRW have now reviewed the report and have rejected the request to waiver the pH result.

This is primarily due to the fact that the accredited laboratory have thoroughly investigated and in conclusion the laboratory still stand by this OSM result and have not withdrawn it.

In reviewing all the information, it therefore cannot be proven that this was an erroneous result.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.
