How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

### 2. What action is required?

| Criteria | Action needed  | Complete by |
|----------|--|-------------|
| IR4B     | To comply with permit condition 4.2.2(c) please ensure that reporting form energy 1 for 2025 is submitted to NRW by the 31st January 2026. | 31/01/2026  |
| IR1C     | Action 1: NRW would like to know what output was used in to generate this figure. Response due by the 31st January.                        | 31/01/2026  |

Compliance criteria codes are listed in the 'Important information' section below.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

### 4. Details of our assessment

#### Permit Compliance Summary: Royal Mint

Permit Condition 3.5.3 requires that: "The first monitoring measurements shall be carried out within four months of the issue date of the permit or the date when the MCP is first put into operation, whichever is later."

The Royal Mint completed their first air emissions monitoring on 14/07/2023, within the required timeframe.

All emissions were found to be compliant with permit limits.

In accordance with the permit, subsequent monitoring is due three years from the date of acceptance of the first measurements. Therefore, the next monitoring must be completed by **14/07/2026**.

The Royal Mint is compliant with permit condition 3.5.3.

The Royal Mints reporting form for energy use for 2024 was also received. This is required annually. A specific usage was reported with a value of 10,648MW per unit out put.

**Action 1: NRW would like to know what output was used in to generate this figure. Response due by the 31st January.**

To comply with permit condition 4.2.2(c) please ensure that reporting form energy 1 for 2025 is submitted to NRW by the 31st January 2026.

End.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

| Assessment result | Description   |
|-------------------|---|
| Assessed (A)      | Assessed or assessed in part, no evidence of non-compliance found |
| Action only (X)   | Action only relating to the activity assessment                   |
| Ongoing (O)       | Ongoing non-compliance, not scored                                |

| Non-compliance category    | Description   | Score |
|----------------------------|---|-------|
| C1 Major                   | Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property | 60    |
| C2 Significant             | Potential to have a significant impact or effect on the environment, people and/or property                                 | 31    |
| C3 Minor                   | Potential to have a minor or minimal impact or effect on the environment, people and/or property                            | 4     |
| C4 No environmental impact | Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property       | 0.1   |

### How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

**If your assessment result in Section 1 is suspended, what does this mean?**

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
