WQ-D2	Implement processes to ensure OSM data is submitted before the quarterly deadline.	Already completed

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

You are non-compliant with your permit.

At this time, we are issuing you with a warning for the non-compliance recorded above. Warnings may influence future enforcement response for continued or further non-compliance.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

The non-compliance(s) listed above were identified by the Water Compliance Team when checking for quarterly Operator Self Monitoring (OSM) data submissions from Hafren Dyfrdwy (HD). These submissions are required at a minimum of quarterly as part of HD's

OSM water discharge permit conditions, but were submitted late on this occasion.

The 3 results (BOD, TSS and ammonia) for OSM samples taken at Four Crosses STW (permit number S/01/56380/R) on the 21/05/2025 & 11/07/2025 were submitted late on 20/10/2025.

Failure to report within the quarter is a breach of condition OSM9.

Non-Compliance category:

This has been classified as a category 3 non-compliance, as a late data submission means NRW cannot regulate properly. HD were eventually prompted to submit the late data.

Actions:

Please adhere to the conditions set out in your environmental permit.

We understand that the incident has already been discussed during an NRW / HD meeting on 3rd November, and that processes have been put in place to prevent recurrence.
