## **ABSTRACTION PERMISSION**

Please accept this letter as confirmation we have are in discussions with National Grid Electricity Transmission (NGET) regarding the installation of their new cable and the rights will include the ability for NGET to pump surface water from the cable troughs onto other land within our ownership for the duration of their installation works.

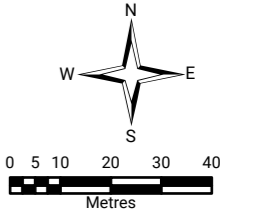

The attached plans show the draft easement rights and proposed freehold transfer area which NGET will have occupation over.

Yours sincerely

Ian J Hampton – Executive Director

For and on behalf of Anglesey Land Holdings.
