On 25/12/2025.

Parts of permit assessed: condition 2.1, 2.2, schedule 1 & 3

**NRW Lead Officer:** Cathrine Kiely.

**Report sent to:** cars@dwrwymru.com, cars mailbox, on 05/01/2026.

### 1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
WQ-C1 - Water Quality - Emissions and monitoring - Emissions to water	Action only (X)	
WQ-C1 - Water Quality - Emissions and monitoring - Emissions to water	Action only (X)	

Result types are explained in more detail in the 'Important Information' section below.

### 2. What action is required?

Criteria	Action needed	Complete by
WQ-C1	Ensure the point of discharge as specified in Table S3.2 of the permit is correct and initiate a variation to permit if it is incorrect.	31/03/2026
WQ-C1	Provide NRW with information as to what steps DCWW will take to prevent mechanical breakdown of pumps following power surges in the future.	30/01/2026

Action criteria codes are listed in the 'Important information' section below.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

### 4. Details of our assessment

On the 25th December 2025 DCWW notified NRW via a self report that both pumps on site

at Bull Bay SPS had failed due to a mechanical breakdown caused by a power surge leading to a discharge from the outfall for approx 3 hours before the discharge was stopped. There was no evidence of environmental impact from the discharge to the sea.

As the discharge was caused by mechanical breakdown of the pumps, the discharge is compliant with condition specified in Schedule 1 A2 detailing a discharge in an emergency.

#### ACTION

It was noted that the actual point of discharge differs from what is specified in Table S3.2 of the permit. DCWW should investigate this and initiate a variation if the point of discharge on the permit is not correct. Deadline: **March 31st 2026**

What steps will DCWW be taking to ensure future power surges do not result in a discharge to the environment? Please provide information to NRW by **30th January 2026**

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

### If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
