Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
WQ-C1	Carry out a quick fix, or a full investigation proposal.	04/03/2026

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On the 12th of December 2025, Natural Resources Wales received a Spill Frequency Trigger Exceedance Notification for Abergwyngregyn CSO and EO from Dwr Cymru. This was because there had been 21 spills against a spill trigger limit in the permit (Table S3.1) of 14 for this asset.

The date of the exceedance on the notification was the 4th of December 2025. As the notification was received by Natural Resources Wales within 4 weeks of this date, the company have complied with condition 3.1.2(a) of the permit.

Action:

Moving forwards from this point, permit condition 3.1.2(b) states that Dwr Cymru should: "provide a reason for the Trigger Exceedance and a description of any remedial action undertaken or proposed. Where the reason/s for the Trigger Exceedance cannot be identified within the 3 months of the Trigger Exceedance the operator must provide a proposal with timeframes for a full investigation to be carried out to identify the reason/s for the Trigger Exceedance for approval by Natural Resources Wales"

Timescale:

We look forwards to seeing the outcomes required by condition 3.1.2(b) by the 4th of March 2026.

Note:

In sending this CAR form, we note that a Spill Reduction Plan was submitted for this asset on the 18th of November 2025. In this Spill Reduction Plan it was noted that the asset would be allocated to a contractor in January 2026, detailed design in September 2026 and construction in February 2027.

We look forwards to this work being carried out.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
