

Permit Number: EPR/BB3397HN Operator: Qualitech Environmental Services Limited

Facility: Sandycroft Waste Management Centre Form Number: Energy Usage1 / 30/08/2019

**Reporting of Energy Usage for the year XXXX**  
2026

Energy Source	Energy Usage		Specific Usage (MWh/unit output)
	Quantity	Primary Energy (MWh)	
Electricity *	MWh	47.2.	
TOTAL	-		

\* Conversion factor for delivered electricity to primary energy = 2.4

Operator's comments: *entire site used 236 MWh annually, 10% of this usage has been allocated to the permitted activity.*

Permit Number: EPR/BB3397HN Operator: Qualitech Environmental Services Limited

Facility: Sandycroft Waste Management Centre Form Number: Air 1 / 30/08/2019

Reporting of emissions to air for the period from DD/MM/YYYY to DD/MM/YYYY  
 01/01/2025 31/12/2025

Emission Point	Substance / Parameter	Emission Limit Value	Reference Period	Result [1]	Test Method [2]	Sample Date and Times [3]	Uncertainty [4]
A1	TVOC as Total Organic Carbon (TOC)	20 mg/Nm <sup>3</sup>	1-hour period	Activity related to this emission point hasn't been commissioned.	BS EN 12619		
A1	Mass emissions (kg/h)	None set	1-hour period	So no result to report for period.	BS EN 16911-1 and MID		

- [1] The result given is the maximum value (or the minimum value in the case of a limit that is expressed as a minimum) obtained during the reporting period, expressed in the same terms as the emission limit value. Where the emission limit value is expressed as a range, the result is given as the 'minimum - maximum' measured values.
- [2] Where an internationally recognised standard test method is used the reference number is given. Where another method that has been formally agreed with Natural Resources Wales is used, then the appropriate identifier is given. In other cases, the principal technique is stated, for example gas chromatography.
- [3] For non-continuous measurements the date and time of the sample that produced the result is given. For continuous measurements the percentage of the process operating time covered by the result is given.
- [4] The uncertainty associated with the quoted result at the 95% confidence interval, unless otherwise stated.
