- fully aware of any permit applications for waste activities on their land
- able to understand their potential liabilities

Is the applicant the landowner for this site?

Yes

Tell us about the site

If you have more than one facility on the site, you need to give us the national grid reference for each facility.

The site means all the land the facility occupies.

Grid Reference Finder (opens in a new tab)

Site name	SGM Waste Management Ltd
Address	Sluice Farm, Broad Street Common, Peterstone Wentlooge, Cardiff

National grid reference for the regulated facility, if different from above	-

Upload your site plan

Check that your site plan is what we need (opens in a new tab).

We will treat the site boundary as the boundary of the activities unless there is a defined area within this on the site plan which clearly shows where the permitted activities are to take place. This may be important to you if your proposed activities only occupy a small portion of a larger site.

Disposal and recovery codes	R13, R3, R5
Hazardous waste treatment capacity (if it applies)	N/A
Non-hazardous waste treatment capacity	2000 tonnes per day

Tell us about the total storage capacity

By 'total storage capacity', we mean the maximum amount of waste, in tonnes, you are able to store on the site at any one time
