Application fee

Please indicate how you wish to pay your application fee. If paying by BACS, please quote the reference number created when setting up the bank transfer.

If paying by cheque, please ensure you add the six digit cheque number below.

BACS

Please add your BACS reference below

WA0560054001

Is this proposal as a result of a Restoring Sustainable Abstraction programme or other work remediation work, to prevent and reduce environmental damage requested by us?

No

Are you making this application as part of an agreement to trade water rights? Water rights trading is where a Licence Holder sells all or part of their abstraction licence rights, permanently or temporarily, to another person.

No

Provide details below

n/a

Existing Licence Holder details

Provide details of the existing Licence Holder.

Specify who we should contact regarding abstraction records (returns)

Existing returns contact

Are you applying to apportion your licence? Find an explanation of apportionment on our website (opens in new tab).

No

Are you applying for a simple change (opens in new tab)?

No

Same terms renewal

Are you applying for a same terms renewal?

Yes

Use this section to show us how you have calculated the amount of water you require. This should include details of your operational regime (for example, number of hours and days you intend to abstract, number of units produced or area to be irrigated). We use this information to determine if the volumes you propose to abstract are appropriate for the purpose. Depending which industry you are in, you may need to provide additional information below.

If your water usage has been lower than your licensed volumes, you will need to provide additional information to demonstrate your continued need for the water, for example, additional justification or a Business Case.

As advised by the Water Resources Permitting Team rather than providing the same information as the original application, we confirm that the design, catchment area, depleted reach, intake, pipe, turbine, efficiencies, outfall, electric export point, etc.... details of the hydroelectric scheme remain the same as the original application. Nothing has changed other than the following comments on the fish pass. The only changes have been improvements to the fish pass downstream of the intake. This work was requested by NRW following compliance visits during 2018 and again in 2023. Photos for the work were submitted to NRW who approved what had been done. Nothing has changed with the fish pass since that date.

Annual abstraction returns have been submitted through the NRW returns portal up to the end of March 2025. Data for the March 2026 return is being collected and will be uploaded in April 2026.

Over the period of the current abstraction licence the name of the licence holder has been changed from the original Geraint Davies to the current Geraint Davies and Owen Rees Davies.

Provide details of what measures you provide to ensure efficient use of water. This could include water storage, re-use or recirculation, monitoring and checking for leaks, undertaking water audits or other industry specific good practise.

The details of the hydroelectric scheme remain the same as the original application. Nothing has changed.
Intake, pipework, fish passes, outfall, control systems, etc... are regularly checked to ensure efficient use of water and operation of the scheme.

Different terms renewal

Are you applying for a different terms renewal

No

Signatures: existing Licence Holder (for all changes), and proposed Licence Holder(s) for Transfers and Apportionments

Existing Licence Holder's signature

Full Name Geraint Davies and Owen Rees Davies
