

## Compliance Assessment Report CAR\_NRW0050584

**Permit being assessed:** LB3790HA.

**For:** Anaerobic Digester, **held by:** Glanmiheli Farm Ltd

**At:** Glanmiheli Farm, Kerry, Newtown, Powys, SY16 4LN.

**Type of assessment:** Report/Data Review,

**Reason:** Routine.

**On:** 04/02/2026.

**Parts of permit assessed:** Records and Reporting.

**NRW Lead Officer:** Malcolm Dines.

**Report sent to:** Lucy Owen, Technically Competent Manager, on 04/02/2026.

### 1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (compliance criteria)	Assessment result	Permit condition
W1A - Waste - Management - General management	C3 Minor	1.1.1 & 1.1.2
W1A - Waste - Management - General management	Action only (X)	
W1A - Waste - Management - General management	Action only (X)	
W1A - Waste - Management - General management	Action only (X)	

Result types are explained in more detail in the 'Important Information' section below.

Total non-compliances recorded	Total non-compliance score
1	4

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

### 2. What action is required?

Criteria	Action needed	Complete by
W1A	Submit a written explanation as to why the levels of VOAs and the Alkalinity to VOA Ratio, on 2 June 2025, 4 August 2025 and 11 August 2025, were outside the expected	08/03/2026

Criteria	Action needed	Complete by
	parameters for a farm-fed Anaerobic Digester	
W1A	Submit a written explanation as to why the levels of alkalinity in your digester, on 6 May 2025 and 23 June 2025, exceeded the typically expected parameters of a farm-fed Anaerobic Digester.	08/03/2026
W1A	Submit the current Hydraulic Retention Time of your digester	08/03/2026
W1A	Submit all sections of your Management System that are relevant to the monitoring of stack emissions.	08/03/2026

Compliance criteria codes are listed in the 'Important information' section below.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

#### **You are non-compliant with your permit.**

**At this time, we are issuing you with a warning for the non-compliance recorded above. Warnings may influence future enforcement response for continued or further non-compliance.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

### 4. Details of our assessment

This review of data was carried out by Malcolm Dines (Waste Regulation Office) to assess compliance with the compliance actions required by Compliance Report CAR\_NRW0050249, dated 6 January 2026.

#### **Permit Breaches**

**W1A - General Management - Environmental Management System and Records**  
**Demonstrating Compliance with Permit Condition 1.1.1 - Cat 3: Permit Condition 1.1.1 & 1.1.2**

You have been given this Category 3 breach of permit conditions 1.1.1 and 1.1.2 as you have failed to submit explanations of why some of your process monitoring records showed levels outside the parameters expected in a farm-fed Anaerobic Digester; the current Hydraulic Retention Time of your digester and the sections of your Management System that was in use on 11 December 2025 and was relevant to undertaking and reporting stack emission monitoring, by 20 January 2026, as required by Compliance Assessment Report CAR\_NRW0050249.

Compliance actions are not optional, permit conditions are written to be environmentally protective and therefore it is reasonably foreseeable that the failure to comply with a permit condition will result in environmental harm. All these breaches are consolidated under the one permit condition.

**Action:** Submit a written explanation as to why the levels of VOAs and the Alkalinity to

VOA Ratio, on 2 June 2025, 4 August 2025 and 11 August 2025, were outside the expected parameters for a farm-fed Anaerobic Digester **by 8 March 2026**

**Action:** Submit a written explanation as to why the levels of alkalinity in your digester, on 6 May 2025 and 23 June 2025, exceeded the typically expected parameters of a farm-fed Anaerobic Digester. **by 8 March 2026**

**Action:** Submit the current Hydraulic Retention Time of your digester **by 8 March 2026**

**Action:** Submit all sections of your Management System that are relevant to the monitoring and reporting of stack emissions. **by 8 March 2026**

### **Other Matters**

#### W3E - Monitoring; Permit Condition 3.5.1

On compliance report NRW\_CAR0050136 you were required to provide a date for when the emissions to air from your biogas engine will be tested. In an email from your Technically Competent Manager, Lucy Owen, on 6 January 2026, it was confirmed that emissions testing was booked for 3 February 2026.

*In this document 'Natural Resources Wales' means the Natural Resources Body for Wales established by Article 3 of the Natural Resources Body for Wales (Establishment) Order 2012.*

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

**How we use assessment scores**

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

**If your assessment result in Section 1 is suspended, what does this mean?**

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.

**Full list of Waste compliance criteria (used in section 1 and 2):****1. Management**

- W1A – General management
- W1B – Energy Efficiency (MCP/SG facilities only)
- W1C – Avoidance, recovery and disposal of wastes produced by the activities

**2. Operations**

- W2A – Permitted activities
- W2B – Waste recovery plan
- W2C – Operating techniques
- W2D – The site
- W2E – Waste acceptance
- W2F – Technical requirements
- W2G – Improvement programme
- W2H – Pre-operational conditions

**3. Emission and Monitoring**

- W3A(1) – Emissions to water
- W3A(2) – Emissions to air
- W3A(3) – Emissions to land
- W3B – Emissions of substances not controlled by emission limits
- W3C – Odour
- W3D – Noise and vibration
- W3E – Monitoring
- W3F – Pests
- W3G – Fire

**4. Information**

- W4A – Records
- W4B – Reporting
- W4C – Notification

**Enforcement response**

Any non-compliance with a permit condition is an offence and we may take legal action against you. Action we take can include prosecution, serving a notice on you and/or suspension or revocation of your permit. See our Enforcement and Sanctions Guidance for further information.

**Data protection notice**

You should make sure that anyone named in this report knows that the information it contains will be processed by Natural Resources Wales to fulfil its regulatory and monitoring functions and to maintain the relevant public register(s).

We may also use and/or disclose the report in connection with:

- offering or providing you with our literature or services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law
- assessing customer service satisfaction and improving our service
- Freedom of Information Act or Environmental Information Regulations requests.

We may also pass it on to our agents or representatives to do these things on our behalf.

**Disclosure of information – this report will be available to view on-line**

If you think this report contains commercially confidential information that should not be placed on our public register, you must contact your local Natural Resources Wales office within **fifteen working days** of receiving this report, using the contact details in the accompanying email or letter. You must give a full explanation of why it should not be added to our public register, including specifying which information is commercially confidential. We will assess your request and respond to you within twenty working days to let you know if we agree to your request.

**Disputing the Content of this Compliance Assessment Report Form**

If you disagree with the content of this Compliance Assessment Report form, you should submit your concerns, in writing, to the regulating officer who issued it within **15 working days** of its issue. This will be treated as a **Stage 1 review**.

If you are not satisfied with the outcome of the stage 1 review, you may request a **Stage 2 appeal**. This request must be submitted **within 21 working days** of receiving the response from the stage 1 review.

Further details on our review and appeal process are available at: [Natural Resources Wales / Appeal a regulatory decision from Natural Resources Wales](#)

**Concerns Not Related to the Content of this Compliance Assessment Report Form**

If your concerns do not relate to the content of the Compliance Assessment Report form, you should first attempt to resolve the issue with the regulating officer or their line manager.

If the issue remains unresolved, please contact our **Customer Contact Team**:

- **Telephone:** 0300 065 3000 (Monday to Friday, 09:00–17:00)
- **Email:** [enquiries@naturalresourceswales.gov.uk](mailto:enquiries@naturalresourceswales.gov.uk)

They will provide details on how to escalate your concerns through our **Complaints and Commendations procedure**.

If you are dissatisfied with our response, you may contact the **Public Services Ombudsman for Wales**:

- **Telephone:** 0300 790 0203
- **Email:** [ask@ombudsman.wales](mailto:ask@ombudsman.wales)

### **Welsh Language Standards**

We are committed to establishing Natural Resources Wales as a naturally bilingual organisation. We will provide compliance reports in your preferred language.
