Date: **04 March 2026**

Dear Dr Timothy Whitton,

MARINE AND COASTAL ACCESS ACT 2009: PART 4 – MARINE LICENSING

LICENCE FOR **Bangor University, School of Ocean Sciences to perform
SeaSTORE research project - Welsh Offshore activities**

LICENCE NUMBER: **RML2601**

I am writing to advise you that the Marine Licensing Team, on behalf of the Welsh Ministers, as Licensing Authority, has considered your application, which was duly made complete on **28 January 2026** for a Marine Licence under Part 4 of the Marine and Coastal Access Act 2009, and hereby grant a Marine Licence for you to undertake the above stated works.

Accordingly, please find attached for your review and retention a copy of Marine Licence **RML2601** and its conditions.

Advisory Note

Marine Licence, **RML2601**, constitutes a statutory consent; therefore, the conditions set out herein must be complied with in full and will be binding upon any agent or contractor who undertakes any activity on the project on your behalf.

There are subsurface pipes and cables within the project area, we recommend you are outside a 250m buffer of such structures when undertaking any sediment samples to avoid potential damage to pipes and cables. The locations can be seen in map view here: [Wales Marine Planning Portal](#).

The JNCC advised that although Queenie Corner MCZ lies within the project's zone of influence and seabed sampling data is limited, the proposed works are not expected to have anything more than an insignificant effect on the site. They recommended that the applicant avoid sampling, as far as practicable, in areas where sea-pen and burrowing megafauna communities (OSPAR) are known to occur.

You are urged to read the conditions of Marine Licence **RML2601** carefully, in particular the need to advise Welsh Government Marine Enforcement Officers of the commencement of works within **5 days** prior to work starting.

Marine Licence, **RML2601** is solely granted for the work to be undertaken in the **Welsh Offshore Region (Irish Sea, North of Ynys Mon / Anglesey)**; however, it does not absolve you from applying for further consents or licences as necessary to enable the full completion of your project.

If the works authorised by this Licence are unlikely to be completed by the expiry date, the Licence Holder should apply for a replacement marine licence **at least 4 months** prior to the expiry date of this Licence.

Should you require clarification as to the reasons for the inclusion of any of the conditions attached to the Licence then you must request written notice within 28 days of the receipt of this letter.
