

## APPLICATION FOR A MARINE LICENCE FOR MARINE WORKS

**Marine Works include, but are not limited to, coast defences, beneficial uses of dredged materials, subsea cables, pontoons, jetties, land reclamation, grab samples and outfall pipes under the Marine and Coastal Access Act 2009**

Please read the notes carefully before completing the form.

- The Marine Licensing Team (MLT) administers Part 4 of the Marine and Coastal Access Act 2009 on behalf of the Licensing Authority, the Welsh Ministers.
- The completed application form must be accompanied by a location plan and, where appropriate, descriptive drawing(s) and any supporting environmental assessments. One completed hard copy of the application and supporting documents will always be required. Additional copies are required for consultation purposes.
  - For application and supporting documents less than 10MB we can accept an additional copy via email.
  - For applications larger than 10MB **16** additional copies in CD/DVD format will be required
  - When applications and supporting documents are hard copy only **16** copies will be required.
- Please submit applications to the **Permit Receipt Centre** via the details at the top of this form
- Please submit marine licence applications, including this form and all supporting documents, **at least 4 months before the licence is required.**

**Some projects may raise matters that require a significantly longer time for consideration.** These are most likely to be:

- Projects that fall **within** The Marine Works (Environmental Impact Assessment) Regulations 2007 – as amended requiring an Environmental Statement
- Large scale projects with substantial volumes of material being deposited or excavated
- Works requiring an Appropriate Assessment to be conducted under The Conservation of Habitats and Species Regulations 2017.
- Information should be provided about the anticipated **duration of the entire project** in respect of works below/seaward of Mean High Water Spring (MHWS). Where appropriate, planned phasing of the work for which consent is sought must be detailed. For projects lasting more than one calendar year, planned phasing details must be given for each 12 month period.

A licence fee is payable in respect of an application. Details of fees can be found on our web pages.

**Please note applications will not be processed without the correct relevant fee or invoicing details.**

- Payments can be made via Cheque, BACS or credit/debit card.
  - Cheques should be crossed and made payable to **Natural Resources Wales.**
  - For BACS payments ensure you provide the reference number (not remittance number)

- For credit/debit card payments please complete the CC1 form and submit with the application. The CC1 form can be found on our web pages

Further information on payment methods can be found on our web pages

- **All activities need to comply with the Water Framework Directive (WFD). The framework and guidance can be found on the Natural Resources Wales website, <http://naturalresources.wales>. The results of your WFD assessment must be attached to your marine licence application.**
- Please answer all questions. If any information is not available at the time of application please indicate in the relevant section, giving reasoning in a covering letter. Outstanding details must be submitted as soon as possible. Any delay in forwarding details is likely to result in delays in determining your application.

**Your application may not be considered complete and therefore not processed until key information has been submitted. Your application may be returned if you fail to submit outstanding information within given timescales.**

- Please note any licence may have conditions that must be discharged before works can commence. This will take additional time.
- If you have any queries with regards to completing this application please contact the MLT: [marinelicensing@naturalresourceswales.gov.uk](mailto:marinelicensing@naturalresourceswales.gov.uk)

### How your application will be processed by the MLT:

- Submit all application to the **Permit Receipt Centre** via the details at the top of this form.
- Checked and acknowledged by the MLT within 21 days of receipt of application and payment
- If the application is complete and no further information is needed at this time, your application will be placed in a work queue to be assigned a permitting officer
- If the application is not complete, further information will be request and need to be provided before the application can be considered as complete
- Our **4 months** service level for determining non-EIA applications will begin from the date the **completed** application is received (*Please note some projects may take significantly longer than 4 months to determine due to their nature*)
- EIA projects may take significantly longer due to their scale and complexity. Therefore we encourage early engagement with the MLT
- Your application and supporting documents will be sent to for an initial consultation period of 28 days (*42 days for EIA projects*)
- For the majority of projects, a public notice must be advertised. Public consultation will be 28 days (*49 days for EIA projects*).  
For EIA projects a second public notice will be required. The MLT will advise on how this should be done.
- Responses to consultation will be considered and additional information requested at this time, if necessary.

- A decision on your Marine Licence Application will be made

All information submitted may be referred to within a licence, therefore all works must be in accordance with this information, unless otherwise agreed with NRW acting on behalf of the Licensing Authority during the determination process.

**It is the responsibility of the applicant to obtain any other consents/authorisations that may be required.**

### Application Form Structure

1. Project Description and Cost
2. Applicant Details
3. Details of Agent, Contractor, Vehicles and/or Vessels used to carry out works
4. Environmental Impact Assessment (EIA)
5. Licensable Period
6. Project Description
7. Methods Statement
8. Materials of Project
9. Beach Replenishment, Land Reclamation or Salt Marsh Feeding
10. Temporary Works
11. Dredge and Disposal of Dredge Material
12. Protected Sites
13. Other Consents
14. Statutory Powers
15. Public Register
16. Application Fee
17. Declaration

### Check List

Please ensure that you have included all the necessary information before you submit your application. **If any of the below are not completed in the application form, the application is likely to be considered incomplete and may be returned to you**

| Item                                                                                                   | Yes (✓) |
|--------------------------------------------------------------------------------------------------------|---------|
| The applicant is a legal entity?                                                                       | ✓       |
| The declaration is signed by the applicant?                                                            | ✓       |
| Is the application fee correct?                                                                        | ✓       |
| Are the grid references/coordinates correct?                                                           | ✓       |
| Do the coordinates match map locations?                                                                | ✓       |
| Have all the relevant supporting documents been submitted?                                             | ✓       |
| Has a clear methodology been provided in the application form?                                         | ✓       |
| Has Protected sites information been included?                                                         | ✓       |
| Has a Water Framework Directive (WFD) assessment been submitted?                                       | ✓       |
| Are all the continuation sheets for application questions appended with correct corresponding numbers? | ✓       |

**Should you have any queries regarding your application please contact the MLT via [marinelicensing@naturalresourceswales.gov.uk](mailto:marinelicensing@naturalresourceswales.gov.uk)**

## 1. Project Description and Cost

### 1 (a). Project Name

MWC0183N – Barmouth Viaduct

### 1(b). Please provide a brief description of the proposed project, including location

OSGR: SH 62440 14870  
Carrying out work on behalf of Network Rail.  
Replacement of one split timber beam on cross section of Barmouth Viaduct.

### 1(c). Please provide an estimated gross cost of the project (Inc. materials and labour) for works that fall below/seaward of Mean High Water Springs (MHWS)

## 2. Applicant Details

To whom the licence will be issued. *This must be a legal entity such as an individual, registered company/ charity or public body.*

Title

Full Name

Company or Trading  
Name

Amalgamated Construction Ltd.

Company Registration  
Number (if applicable)

00995892

Name of Contact or  
individual (if different)

Fiona Bussell

Position in Company

Senior Sustainability & Assurance Advisor

Address inc. postcode  
(provide registered  
Company address if  
applicable)

3175 Century Way  
Thorpe Park  
Leeds  
LS15 8ZB

Telephone Number

01226 243413

Email Address

Fiona.bussell@amcogiffen.co.uk

### 3. Details of Agent, Contractor, Vehicles and/or Vessels used to carry out works

#### 3(a). Agent Details

*This is who we will correspond with unless otherwise informed. If no agent we will contact the applicant.*

|                                              |                      |           |                      |
|----------------------------------------------|----------------------|-----------|----------------------|
| Title                                        | <input type="text"/> | Full Name | <input type="text"/> |
| Company or Trading Name                      | <input type="text"/> |           |                      |
| Company Registration Number (if applicable)  | <input type="text"/> |           |                      |
| Name of Contact or individual (if different) | <input type="text"/> |           |                      |
| Position in Company                          | <input type="text"/> |           |                      |
| Address (Inc. postcode)                      | <input type="text"/> |           |                      |
| Telephone Number                             | <input type="text"/> |           |                      |
| Email Address                                | <input type="text"/> |           |                      |

**3(b). Does the Applicant wish to be included in all correspondence?** Yes ☐ No ☐

#### 3(c). Contractor Details

In order for contractors to benefit from the licence permission, details must be provided. Any details not provided with application must be confirmed before operations commence.

| Contractor Company or Trading Name | Address                                |
|------------------------------------|----------------------------------------|
| AmcoGiffen                         | Whaley Road, Barugh, Barnsley, S75 1HT |
|                                    |                                        |
|                                    |                                        |

**3(d). Will the works require the use of vessels?**

Yes ☐ No ☒

**3(d) (i). Vessel Details (if applicable and available)**

In order for contractors to benefit from the licence permission, details must be provided.  
*Any details not provided with application must be confirmed before operations commence.*

| Operator | Name of Vessel | Type of Vessel | Vessel Registration Number | Country of Registration |
|----------|----------------|----------------|----------------------------|-------------------------|
|          |                |                |                            |                         |
|          |                |                |                            |                         |
|          |                |                |                            |                         |
|          |                |                |                            |                         |

**3(e). Will the works require the use of vehicle?**

Yes ☒ No ☐

**3(e) (i). Vehicle Details (if applicable and available) to be used below MHWS**

In order for contractors to benefit from the licence permission, details must be provided.  
*Any details not provided with application must be confirmed before operations commence.*

| Operator   | Type/Description of Vehicle   |
|------------|-------------------------------|
| AmcoGiffen | 360 excavator                 |
| AmcoGiffen | Tractor with attached trailer |
|            |                               |
|            |                               |

**3(f). If the contractor or vessels or vehicles are not known at the application stage, when do you expect to provide these details?**

*These details will need to be confirmed prior to the licence and operations commencement*

|  |
|--|
|  |
|--|

**4. Environmental Impact Assessment (EIA)**

Certain projects, due to their scale, location and/or nature, may require an EIA under the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended). If a

project qualifies under EIA, an Environmental Statement (ES) must be prepared and submitted with the application.

Projects that fall within Annex I of the Directive automatically require an EIA. Projects that fall within Annex II of the Directive are assessed on a case-by-case basis for the requirement for an EIA to be undertaken.

**4(a). Do you consider the works to be under the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended)?** Yes ☐ No ☒

**4(a) (i) If Yes, which Annex does the proposal fall under?** Annex I ☐ Annex II ☐

**4(a) (ii) Which number(s) within the Annex does the proposal relate to?**

**4(b). Have you applied for a screening or scoping opinion from the MLT under the Marine Works (Environmental Impact Assessment) Regulations 2007 (as amended)?** Yes ☐ No ☒

**4(b) (i). If Yes, please provide the reference number**

**4(c). Has an Environmental Impact Assessment been undertaken?** Yes ☐ No ☒

**4(c)(i). If Yes, has an Environmental Statement been submitted to support this Marine Licence application?** Yes ☐ No ☐

**4(d). If an Environmental Impact Assessment has been undertaken, but an ES has not been submitted, please provide an explanation**

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

## 5. Licensable Period

Determination of applications will be based on the works taking place during these dates. Please ensure you have included an adequate contingency period. If works are not completed by the Requested Licence Expiry Date you may be required to submit a new application. *Including a contingency period within your original application does not impact on Licence Fee*

**Start Date** August 2019

**Requested Licence Expiry Date** August 2020

*Please ensure you submit your application for a Marine Licence **at least 4 months** prior to the intended start date. Some projects, such as EIA projects, will take significantly longer to determine.*

## 6. Project Description

### 6(a). Please give a description of the proposed project.

This should include the purpose of the project, estimated timescales of construction and operation, and broken down by the phases of works, if applicable.

Details should include, but not be limited to, dimensions of project, quantity of material being deposited and removed.

Replace with a suitable grade of hardwood timber, a diagonal waling and bracings that shows signs of decay and severe splitting.

Work scope includes:

- Replacing 1 broken timber element to the railway viaduct.
- Site compound set up away from the foreshore
- Works to be carried out at low tides, and would take two shifts (daytime) to complete.
- Site compound demobilisation.

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

### 6(b). Please detail the location of the proposed construction project.

This should be either Ordnance Survey National Grid Reference (i.e. AB 12345 67890) or Latitude and Longitude in decimal degrees to 4 decimal places (i.e. Lat 52.1234 Long - 4.1234), defining the extent of the project. **Please specify which coordinate system has been used.**

OSGR: SH 62440 14870

Barmouth railway viaduct

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

**6(c). The following must be provided with the completed application form:**

- (i) a suitably scaled extract of an Ordnance Survey Map or Admiralty Chart with location of project, complete with **North Arrow** and **Scale**
- (ii) construction plans and sectional drawings showing those proposed works below/seaward of MHWS, which should give details of the materials to be used (for beach replenishment the quantity, particle size and source of material to be deposited and deposit location is also required).
- (iii) a descriptive schematic drawing and suitably scaled location plan which show the full extent of the project clearly in relation to the surrounding area and features.

Please list below **all supporting documents** that have been submitted with this application, including suitable documents/maps/drawing titles and reference numbers

1. MWC0183N – Barmouth Viaduct OS Map
2. MWC0183N – Barmouth Viaduct access route 2019 – avoiding Crown Foreshore Estate
3. MWC0183N – Barmouth Viaduct Magic Map
4. MWC0183N – Photographs
5. MWC0183N – Question continuation sheet
6. MWC0183N – WFD Assessment

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

The applicant should note that these drawings/plans may be copied to others as part of the MLT's consultation procedures. If they are subject to copyright, it is the **responsibility of the applicant to obtain the necessary approvals to reproduce the documents and to submit up to 16 copies with the application.**

## 7. Methods Statement

**7(a). Please provide a detailed method statement for the works**

This must include methods for all works including temporary structures or deposits such as jetties, cofferdams, moorings or landing stages to be constructed seaward of MHWS

Access to the work site shall be via the headland direct to the underside (beach) of the structure. Access route shown on enclosed map (2).

- This work is to :-
  - Replace 1 broken timber element to the railway viaduct.
  - To allow this to take place, A 360 excavator and a tractor and trailer would be required to access onto the beach (below the structure)
  - All machines travelling on to the beach would be running with biodegradable oils.
  - No fuel will be stored and no refuelling will take place on the beach and plant nappies will be used to contain all small plant.

- Works to be carried out at low tides, and would take two shifts (daytime) to complete.
- A mobile tower scaffold will be erected at the worksite to access the timber element that requires changing. The tower scaffold would be removed at the end of each shift.
- All plant and materials shall be taken away from the worksite at the end of each shift.

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

**7(b). Do you intend to undertake activities that could generate underwater noise?**

This include piling, use of explosives, geophysical, acoustic deterrent devices and multibeam echosounders.

Yes ☐ No ☒

**7(b) (i). If Yes, what type(s) of activities will be undertaken?**

**7(b) (ii). If Yes, approximately how many days will the activity be undertaken for?**

If Yes, you will be required to complete an additional form that will be provided.

**7(c). Please state the measures to be taken to:**

**(i) Minimise risk to the marine environment**

- Plant and vehicles will not be refuelled on the foreshore and all refuelling will be more than 10m away from any watercourses.
- Secondary containment will be used to contain and prevent release of polluting materials associated with plant and refuelling activities.
- All equipment, materials, plant and workers PPE will be in a clean condition prior to arrival on site and will be cleaned before leaving site.
- If protected species are seen during the works, they will remain undisturbed and an ecologist contacted for advice and assistance.
- Work will be carried out at low tide times only to prevent working within the water.

(ii) Prevent undue interference to others

- Work activities will be limited to daylight hours and will take two-shifts to complete.

(iii) Maintain navigational safety, including marking and lighting of works

- Works will be undertaken at low tides to access the structure from the beach rather than water. At this point no water-sailing vessels will be in use.
- Works will be carried out during the daytime.

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

## 8. Materials of Project

**8(a). Description of materials to be deposited seaward of MHWS (Please tick all that apply)**

|        |                                     |            |                          |          |                          |                          |                          |
|--------|-------------------------------------|------------|--------------------------|----------|--------------------------|--------------------------|--------------------------|
| Timber | <input checked="" type="checkbox"/> | Iron/Steel | <input type="checkbox"/> | Concrete | <input type="checkbox"/> | Biocides/other chemicals | <input type="checkbox"/> |
| Silt   | <input type="checkbox"/>            | Stone/Rock | <input type="checkbox"/> | Gravel   | <input type="checkbox"/> | Plastic/Synthetics       | <input type="checkbox"/> |
| Sand   | <input type="checkbox"/>            | Other      | <input type="checkbox"/> |          |                          |                          |                          |

If other, please provide a description of materials.

**8(b). Delivery method of materials to site**

If sea delivery, please include details of vessels to be used with a chart of proposed route and transshipment area. If vehicle delivery, please provide the proposed access route.

Land based access at low tide times. Using a tractor and trailer to deliver the timber beam to the work location at viaduct.

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

**8(c). Will the works involve removals seaward of MHWS?** Yes ☐ No ☒

**8(c) (i). Description of materials to be removed seaward of MHWS (Please tick all that apply)**

|        |                          |            |                          |          |                          |                          |                          |
|--------|--------------------------|------------|--------------------------|----------|--------------------------|--------------------------|--------------------------|
| Timber | <input type="checkbox"/> | Iron/Steel | <input type="checkbox"/> | Concrete | <input type="checkbox"/> | Biocides/other chemicals | <input type="checkbox"/> |
| Silt   | <input type="checkbox"/> | Stone/Rock | <input type="checkbox"/> | Gravel   | <input type="checkbox"/> | Plastic/Synthetics       | <input type="checkbox"/> |

Sand ☐ Other ☐

**8(c) (ii). Description of objects/materials to be removed seaward of MHWS**  
Including quantities to be removed.

**9. Beach Replenishment, Land Reclamation or Salt Marsh Feeding**

For works involving any of the above, please provide the following information

**9(a). Is the material to be deposited like for like to existing material?** Yes ☐ No ☐

**9(a)(i) If No for Beach Replenishment please provide justification why?**

**9(b). Description of material to be deposited**

Please provide the grading specification of materials to be used, if using a range of grain sizes please state the percentage by weight passing. *If unsure, please refer to the Wentworth Scale*

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

**9(c). Source of the material to be deposited**

Including dredged or land based stating the origin of material

**9(d). Has the material been chemically analysed?**

Yes ☐ No ☐

If material has been analysed, we may request this information to determine the application

**9(d) (i) If Yes, is the analysis data been included with the application?** Yes ☐ No ☐

## 10. Temporary Works

10(a). Will there be any temporary deposits below MHWS? Yes ☒ No ☐

This includes construction materials, removed objects/material, jetties or cofferdams

If **Yes**, please continue with section **10**

10(b). Please provide the location of temporary deposits

Please include a map/chart displaying the location of temporary deposits, if necessary.

Red arrow indicates section of viaduct requiring replacement of timber beam. Mobile tower scaffold will be in place at this one section of viaduct only.

10(c). Description of temporary deposits

A mobile tower scaffold; erected at worksite to access the timber element that requires replacing. The mobile tower scaffold would be removed at the end of each shift.

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

## 11. Dredge and Disposal of Dredge Material

If you are undertaking Dredge and Disposal activities please also complete the Dredge and Disposal application form and submit together.

11(a). Do you intend to apply for a marine licence to dispose of dredged material to sea as part of the works in this application? Yes ☐ No ☒

## 12. Protected Sites

Licensing Authorities have a duty to ensure that projects will **not have significant adverse environmental impact**, particularly on any designated **European Site of Conservation Importance - Special Areas of Conservation (SAC) and Special Protection Areas (SPA)**, listed under the **Habitats Directive (Council Directive 92/43/EEC on the conservation of natural habitats and of wild fauna and flora)**. In addition, it is Government Policy that Wetlands of International Importance (Ramsar sites) are also considered as European

Sites. There is a duty to take reasonable steps to further the conservation and enhancement of nationally designated sites (Sites of Special Scientific Interest (SSSIs).

**12(a). Have you had pre-application correspondence with NRW, its legacy bodies or Natural England?** Yes ☐ No ☒

**12(a)(i). If Yes, please provide copies of correspondence with application and state which team(s) you have contacted?**

**12(b). Are any part of the works located *within* or *likely to affect* a designated conservation site? (SAC, SPA, SSSI or Ramsar)** Yes ☒ No ☐

**12(b)(i). If Yes, which designated site(s) may be affected?**

SSSI – Aber Mawddach / Mawddach Estuary  
SAC – Pen Llyn A'r Sarnau / Llyn Peninsula and the Sarnau

**12(c). Please provide a description of all mitigation measures proposed to avoid any impact on designated conservation sites.**

- Plant and vehicles will not be refuelled on the foreshore and all refuelling will be more than 10m away from any watercourses.
- Secondary containment will be used to contain and prevent release of polluting materials associated with plant and refuelling activities.
- All equipment, materials, plant and workers PPE will be in a clean condition prior to arrival on site and will be cleaned before leaving site.
- Work activities will be limited to daylight hours.
- If protected species are seen during the works, they will remain undisturbed and an ecologist contacted for advice and assistance.
- Work will be carried out at low tide times only to prevent working within the water.

Please continue on a separate sheet if necessary. Please tick if you have done this ☒

**12(d). If the works are not located *within* or *likely to affect* a designated conservation site, please indicated the approximate distance to the nearest designated conservation site.**

Please note that if the proposed works are in or within 2km of a European Site of Conservation Importance you will have to provide suitable mitigation measure to avoid any impact on designated conservation sites.

### 13. Other Consents

Please detail all consents that you have applied for or received for these works

| Type of Consent                                                                                                     | Applied for | To be applied for | Reference Number | Date of Issue and Expiry |
|---------------------------------------------------------------------------------------------------------------------|-------------|-------------------|------------------|--------------------------|
| <b>Planning Permission under Town and County Planning Act 1990 – From Local Planning Authority (LPA)</b>            |             |                   |                  |                          |
| <b>Name and Address of LPA for location of works</b>                                                                |             |                   |                  |                          |
| <b>Land Owners Consent</b> such as The Crown Estate Consent                                                         |             |                   |                  |                          |
| <b>Port Authority or Local Harbour permissions</b>                                                                  |             |                   |                  |                          |
| <b>Other NRW consents</b> <i>such as Flood Defence or SSSI assent</i>                                               |             | X                 |                  |                          |
| <b>Details of NRW consent</b>                                                                                       |             |                   |                  |                          |
| <b>Other consents</b> <i>such as Transport and Works Act Order, Section 36 Electricity Act, grant/loan sanction</i> |             |                   |                  |                          |
| <b>Details of other consents</b>                                                                                    |             |                   |                  |                          |

### 14. Statutory Powers
