

Compliance Assessment Report CAR_NRW0050643

Permit being assessed: BP0244501

For: Opp 74 Bonymaen Rd CSO, Swansea ,, **held by:** DWR CYMRU CYFYNGEDIG

At: Opp 74 Bonymaen Rd, Swansea, Swansea, SA1 7AW.

Type of assessment carried out: Site Inspection,

Reason: Routine.

On 23/01/2026, between 12:30 and 12:45.

Parts of permit assessed: 2.1 Permitted activities; 2.2 The site; 2.3 Operating techniques; 3.1 Monitoring

NRW Lead Officer: Catherine Tucker, accompanied by: Sarah Bennett, Gareth Martin.

Report sent to: CARS@dwrwymru.com, CARS Mailbox, on 13/02/2026.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Non-compliant permit condition
WQ-B1 - Water Quality - Operations - Permitted activities	Assessed (A)	
WQ-B2 - Water Quality - Operations - The site	Assessed (A)	
WQ-B3 - Water Quality - Operations - Operating techniques	Assessed (A)	
WQ-C4 - Water Quality - Emissions and monitoring - Monitoring	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

The purpose of this Compliance Assessment Report is to:

- Record our findings following a site inspection
- Review the Event Duration Monitoring (EDM) 2024 data submitted to us
- Review of Storm Overflow Assessment Framework (SOAF) report information
- Review and record any completed actions from previous CARs.

The permit for Opp 74 Bonymaen Rd CSO allows the discharge of storm sewage to the River Tawe as defined by the permit conditions. The permit was varied in 2019 to include Event Duration Monitoring conditions.

Inspection report

On the 23 January 2026 we carried out an inspection with Dwr Cymru operatives of the Combined Sewer Overflow (CSO). It was light rain during the inspection. It had rained heavily on the days prior to the inspection. The CSO was not operating at the time of the visit.

You informed us that the CSO is currently on a bi-annual maintenance programme.

The CSO appeared to be a single sided low level weir structure with no mechanical flow controls installed. There was an overflow at the top of the chamber which linked into the surface water chamber as described as the point of overflow in the permit. There was evidence of a historical orifice structure within the chamber, you told us this would no longer function as part of the CSO operation.

The overflow chamber appeared to be clear of sewage debris and the flows were low. If necessary, a storm sewage sample could be taken from the overflow chamber.

The CSO does not have a screen installed. This was identified in the improvement conditions submitted to us in 2023 and the submitted Storm Overflow Assessment Framework (SOAF) report carried out in 2022.

The permitted discharge point for the CSO is located on a small tributary of the River Tawe at SS 67230 95235, we did not inspect the outfall on this occasion.

The Event Duration Monitor was installed in the CSO chamber above the overflow weir as expected.

The weir setting is 36.33 litres per second. The SOAF report identified hydraulic overload as the primary cause of the high number of spills recorded at the CSO. The impact from the spills recorded was assessed as Low.

During this inspection, we did not identify any non-compliances.

Review Event Duration Monitoring (EDM) 2024 data submitted to us

The discharge from this CSO is not subject to a spill trigger limit. The Event Duration

Monitoring data submitted to NRW annually indicates that the EDM is fully operational and recording 93.40% of the time. In 2024 the EDM recorded 56 block counted spills for 66 hours.

Review of SOAF report information

The SOAF report submitted to us for Opp 74 Bonymaen Rd CSO provided a delivery prediction period of AMP10 which is expected to be delivered before 2040. This storm overflow has been classified as substandard due to the lack of screens.

Review of previous CAR actions.

There are no previous CAR actions to review.

Thank you.

END

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

Full list of water quality action criteria (used in section 1 and 2):**WQ A: Management**

- WQ-A1 General management

WQ B: Operations

- WQ-B1 Permitted activities
- WQ-B2 The site
- WQ-B3 Operating techniques
- WQ-B4 Improvement programme
- WQ-B5 Pre-operational conditions

WQ C: Emissions and monitoring

- WQ-C1 Emissions to water
- WQ-C2 Emissions to land
- WQ-C3 Emissions of substances not controlled by emission limits
- WQ-C4 Monitoring
- WQ-C5 Installation of monitoring boreholes

WQ D: Information

- WQ-D1 Records
- WQ-D2 Reporting
- WQ-D3 Notifications

Enforcement response

Any non-compliance with a permit condition is an offence and we may take legal action against you. Action we take can include prosecution, serving a notice on you and/or suspension or revocation of your permit. See our Enforcement and Sanctions Guidance for further information.

Data protection notice

You should make sure that anyone named in this report knows that the information it contains will be processed by Natural Resources Wales to fulfil its regulatory and monitoring functions and to maintain the relevant public register(s).

We may also use and/or disclose the report in connection with:

- offering or providing you with our literature or services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law
- assessing customer service satisfaction and improving our service
- Freedom of Information Act or Environmental Information Regulations requests.

We may also pass it on to our agents or representatives to do these things on our behalf.

Disclosure of information – this report will be available to view on-line

If you think this report contains commercially confidential information that should not be placed on our public register, you must contact your local Natural Resources Wales office within **fifteen working days** of receiving this report, using the contact details in the accompanying email or letter. You must give a full explanation of why it should not be added to our public register, including specifying which information is commercially confidential. We will assess your request and respond to you within twenty working days to let you know if we agree to your request.

Disputing the Content of this Compliance Assessment Report Form

If you disagree with the content of this Compliance Assessment Report form, you should submit your concerns, in writing, to the regulating officer who issued it within **15 working days** of its issue. This will be treated as a **Stage 1 review**.

If you are not satisfied with the outcome of the stage 1 review, you may request a **Stage 2 appeal**. This request must be submitted **within 21 working days** of receiving the response from the stage 1 review.

Further details on our review and appeal process are available at: [Natural Resources Wales / Appeal a regulatory decision from Natural Resources Wales](#)

Concerns Not Related to the Content of this Compliance Assessment Report Form

If your concerns do not relate to the content of the Compliance Assessment Report form, you should first attempt to resolve the issue with the regulating officer or their line manager.

If the issue remains unresolved, please contact our **Customer Contact Team**:

- **Telephone:** 0300 065 3000 (Monday to Friday, 09:00–17:00)
- **Email:** enquiries@naturalresourceswales.gov.uk

They will provide details on how to escalate your concerns through our **Complaints and Commendations procedure**.

If you are dissatisfied with our response, you may contact the **Public Services Ombudsman for Wales**:

- **Telephone:** 0300 790 0203
- **Email:** ask@ombudsman.wales

Welsh Language Standards

We are committed to establishing Natural Resources Wales as a naturally bilingual organisation. We will provide compliance reports in your preferred language.
