Andrew Nicholas, the proposed TCM holds Level 4 WAMITAB primary qualifications for:

- Managing transfer of hazard waste (4TSH); and
- Non-hazardous waste treatment and transfer (MROC1)

His Continuing Competence is currently valid for Transfer – Hazardous Waste (TSH).

A copy of the relevant certificates accompanies this application.

His Continuing Competence for non-hazardous waste treatment and transfer (TMNH) has lapsed. He has however booked a test at his local test centre and would have this in place prior to the commencement of operations.

The WAMITAB web site states that the primary competence requirements for the SR2007 No7 standard rules permit is Level 4 High Risk Operator Competence for Managing Physical and Chemical Treatment of Hazardous Waste (601/8502/8) (HROC6). Given that there is no treatment of hazardous waste under this permit (solely bulking and transfer of asbestos) and, the similar standard rules environmental permits that allow asbestos transfer (SR2008 No05, SR2008 No06, SR2008 No09) require Level 4 High Risk Operator Competence for Managing Transfer of Hazardous Waste (HROC4a) only, there appears to be a disparity in the requirements. This has been discussed with the TCM's preferred WAMITAB approved training provider, Environmental Leadership Ltd, who also consider this situation to be incongruous. Environmental Leadership have written to both CIWM and NRW in order to confirm whether the technical competence requirements shown on the WAMITAB web site are correct.

At the date of application, no response has been received from CIWM or NRW.

Should the decision be that the Level 4 High Risk Operator Competence for Managing Physical and Chemical Treatment of Hazardous Waste (HROC6) is required, Mr. Nicholas is required to complete two additional modules. He currently holds the first four key units of the full qualification to comply with the requirements of the 12-month grace period, and will complete the additional modules prior to, or within 12 months of the permit being issued.

Continuing Competence Certificate

This certificate confirms that

Andrew Nicholas

Has met the relevant requirements of the Continuing Competence scheme for the following award(s) which will remain current for two years from 09/06/2025
