

## Compliance Assessment Report CAR\_NRW0050960

**Permit being assessed:** MB3193HZ.

**For:** Stiens Skip And Recycling Facility, **held by:** Stiens Haulage Ltd

**At:** Elba Crescent, Crymlyn Burrows, Swansea, SA1 8QQ.

**Type of assessment:** Site Inspection,

**Reason:** Routine.

**On:** 19/02/2026 between 14:45 and 15:15.

**Parts of permit assessed:** Specified by permit.

**NRW Lead Officer:** Angharad Clark.

**Report sent to:** Craig Steins, Technically Competent Manager, on 05/03/2026.

### 1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (compliance criteria)	Assessment result	Permit condition
W2A - Waste - Operations - Permitted activities	Assessed (A)	
W2D - Waste - Operations - The site	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

Total non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

### 2. What action is required?

No action required.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

## 4. Details of our assessment

On 19<sup>th</sup> February 2026 Angharad Clark attended Steins Skips and Recycling Facility and met with the site operator. The operator stated that they were winding down the skip side of the business and concentrating on haulage. During the discussion the operator queried whether their permit allows them to crush hardcore at the site.

### **Is crushing covered by the permit**

The current permit does not allow crushing to be carried out at the site. Table 2.1 of the permit states that:

*Treatment consisting only of manual sorting or manual separation of waste into different components for disposal, or recovery.*

Treatment types included in the permit do **not** include crushing.

### **Surrender of permit**

The operator stated that they were considering surrendering the permit. Guidance the forms required to surrender a permit can be found at:

[Natural Resources Wales / Apply to surrender \(give up\) all or part of a waste permit](#)

### **Other observations**

The site was tidy with a small amount of soils and mixed construction and demolition waste present.

Thank you for taking the time to meet with me.

**END**

**Any compliance criteria not highlighted in the above summary should be considered as not assessed.**

**In this document ‘Natural Resources Wales’ means the Natural Resources Body for Wales established by Article 3 of the Natural Resource Body for Wales (Establishment) Order 2012.**

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

**How we use assessment scores**

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

**If your assessment result in Section 1 is suspended, what does this mean?**

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
