Schedule

Your permit allows for the treatment of hazardous waste. The proposed Technically Competent Manager (TCM) holds a WAMITAB Continuing Competence Certificate which doesn't include the treatment of hazardous waste (only transfer of hazardous waste), which means the proposed TCM is not technically competent to manage the permitted operations. The TCM must hold the qualifications that cover all the activities listed in the permit.

We have a legal duty to not to grant the transfer of the permit until all required modules are complete and the evidence of this is provided.

Please provide the evidence of the complete qualifications that cover all the permitted activities.
