### 2. What action is required?

No action required.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

### 4. Details of our assessment

Compliance inspection of Cardiff Eastern District pumping station short sea outfall (SSO).

This inspection is linked to the sister permit of the LSO at Cardiff Eastern District AN0308501. There will be a separate CAR for that permit under CAR\_NRW0051174, however the information will remain the same.

This inspection was due to the annual maintenance of the asset which requires a HVAC to lift the large concrete covers. In the previous CAR NRW requested DCWW undertake this annual maintenance prior to the bathing season and to inform NRW to line up the maintenance with a visit so that the screens can be inspected.

The screens were cleaned on the day prior due to the work not taking as long as DCWW initially thought. Before and after pictures were taken of the screens for comparison. The site consists of two large screens which self clean with a mechanical flipper arm that sends the screened debris back into the main sewer headed for Cardiff works. These appear to have been working effectively due to the clean condition of the screens.

On the previous inspection in May 2025 there was only one EDM monitor for the LSO discharge, however there has now been an EDM monitor installed and operational for the SSO to record the spills separately. This is now displayed on the storm overflow map and also shown on the telemetry display on site.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property
