4. Details of our assessment

Site Report

On 18/03/2026 Natural Resources Wales Senior Environment Officer from the Cwm Taf and Bridgend Environment Team carried out a compliance inspection of water quality discharge permit references AN0308201, AN0308301, AN0385601, AN0011701 and AN0320901 for Gelli spoil tip / Nant y Gwyddon landfill site. I was accompanied by Amgen Rhondda Cynon Taff County Borough Council Landfill Technician / Manager. The weather was dry and bright.

This report is for permit reference AN0320901 - site drainage from settlement lagoons to the Cwm Caedafydd. This discharge is monitored by the Operator near Clydach lakes at monitoring point 'surface water 4'. The discharge channel had a low flow at the time of inspection (see image 1). The water was clear with no odour.

Image 1: channel at National Grid Reference SS 97530 93743, approximately 200 metres upstream of the permitted discharge and sampling point.

This site is no longer operational and is undergoing remediation / regeneration. The majority of the surface of this site is now vegetated with no evidence of contaminated surface water discharge.

Breaches of permit conditions

None

Actions required

None

Other advisory comments

I recommend that the Operator consider whether this permit is still required and to advise surrendering the permit if it is no longer required. Further information on surrendering permits can be found on NRW's website [Natural Resources Wales / Surrendering \(giving up\) your permit for water discharges](#)

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property
