

Compliance Assessment Report CAR_NRW0051304

Permit being assessed: ZB3593HH.

For: S L Recycling Ltd, **held by:** S L Recycling Limited

At: Unit 9, Penallta Industrial Estate, Penallta, Hengoed, Caerphilly, CF82 7SU.

Type of assessment: Site Inspection,

Reason: Routine.

On: 18/03/2026 between 11:05 and 11:40.

Parts of permit assessed: Detailed below.

NRW Lead Officer: Nicola Rossiter, accompanied by Jodie Baskerville.

Report sent to: Becky Tucker, Technically Competent Manager, on 01/04/2026.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (compliance criteria)	Assessment result	Permit condition
W1A - Waste - Management - General management	Action only (X)	
W2A - Waste - Operations - Permitted activities	Assessed (A)	
W2C - Waste - Operations - Operating techniques	Assessed (A)	
W2D - Waste - Operations - The site	Assessed (A)	
W2E - Waste - Operations - Waste acceptance	Assessed (A)	
W3C - Waste - Emissions and monitoring - Odour	Assessed (A)	
W3D - Waste - Emissions and monitoring - Noise and vibration	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

Total non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
W1A	Please provide NRW with a copy of the certificate of Technical Competence, for our records.	30/04/2026

Compliance criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

PERMIT INSPECTION

On 18th March 2026 Industry and Waste Regulation Officer Nicola ROSSITER and Senior Officer Jodie BASKERVILLE attended the SL Recycling facility (EPR- ZB3593HH) at Penallta Industrial Estate for an unannounced routine site inspection.

Officers arrived on site at 11:05 hours and found the site operational, albeit quiet. Weather conditions at the time of the inspection were fine and dry. The Site Operator greeted officers on arrival and was able to provide the information requested and respond appropriately to all questions posed.

GENERAL OBSERVATIONS

The site appeared orderly and well-managed at the time of the inspection. Housekeeping standards were good, with minimal litter observed across the operational areas. Waste materials were clearly segregated and stored in accordance with site procedures, as demonstrated in Photograph 1.

Photo 1. Different waste streams stored separately

There were no compliance issues identified in relation to either the depollution bay or the vehicle storage area. The depollution area was observed to be well organised, clean, and located under appropriate shelter, as shown in Photograph 2.

Photograph 2. Depollution area

Vehicles were being stored in an orderly manner on the impermeable surface; however, some areas of the surface were observed to be showing minor signs of wear and deterioration, as illustrated in Photographs 3 and 4. Resurfacing these sections would help maintain the integrity of the impermeable surface and reduce the risk of potential failure.

Photo 3 & 4. Area of impermeable surface showing signs of wear

All waste observed during the inspection was stored within the permitted limits. A small number of tyres were noted as being stored off the impermeable surface, as shown in Photograph 5. The Site Operator confirmed that these tyres would be relocated onto the impermeable surface following the inspection, prior to their removal from the site.

Photo 5. Tyres in the front of the photo on the impermeable surface, those at the back are off the impermeable surface

No offensive noise or odours were detected by any Officer during the inspection.

Officers ROSSITER and BASKERVILLE left site at 11:40 hours.

WAMITAB

The Technically Competent Manager for the site is Becky Tucker whose certificate remains current at the time of the inspection.

ACTION - Please forward a copy of your certificate to NRW for our records.

WASTE RETURNS

Waste Returns were up to date and within waste acceptance limits, thank you. Please continue to submit them in a timely manner.

CONTACT DETAILS

If you have any queries regarding this CAR form or to provide an update on any actions above, please contact me using the following details: Nicola ROSSITER, Waste Regulation Officer, nicola.rossiter@cyfoethnaturiolcymru.gov.uk .

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.

Full list of Waste compliance criteria (used in section 1 and 2):**1. Management**

- W1A – General management
- W1B – Energy Efficiency (MCP/SG facilities only)
- W1C – Avoidance, recovery and disposal of wastes produced by the activities

2. Operations

- W2A – Permitted activities
- W2B – Waste recovery plan
- W2C – Operating techniques
- W2D – The site
- W2E – Waste acceptance
- W2F – Technical requirements
- W2G – Improvement programme
- W2H – Pre-operational conditions

3. Emission and Monitoring

- W3A(1) – Emissions to water
- W3A(2) – Emissions to air
- W3A(3) – Emissions to land
- W3B – Emissions of substances not controlled by emission limits
- W3C – Odour
- W3D – Noise and vibration
- W3E – Monitoring
- W3F – Pests
- W3G – Fire

4. Information

- W4A – Records
- W4B – Reporting
- W4C – Notification

Enforcement response

Any non-compliance with a permit condition is an offence and we may take legal action against you. Action we take can include prosecution, serving a notice on you and/or suspension or revocation of your permit. See our Enforcement and Sanctions Guidance for further information.

Data protection notice

You should make sure that anyone named in this report knows that the information it contains will be processed by Natural Resources Wales to fulfil its regulatory and monitoring functions and to maintain the relevant public register(s).

We may also use and/or disclose the report in connection with:

- offering or providing you with our literature or services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law
- assessing customer service satisfaction and improving our service
- Freedom of Information Act or Environmental Information Regulations requests.

We may also pass it on to our agents or representatives to do these things on our behalf.

Disclosure of information – this report will be available to view on-line

If you think this report contains commercially confidential information that should not be placed on our public register, you must contact your local Natural Resources Wales office within **fifteen working days** of receiving this report, using the contact details in the accompanying email or letter. You must give a full explanation of why it should not be added to our public register, including specifying which information is commercially confidential. We will assess your request and respond to you within twenty working days to let you know if we agree to your request.

Disputing the Content of this Compliance Assessment Report Form

If you disagree with the content of this Compliance Assessment Report form, you should submit your concerns, in writing, to the regulating officer who issued it within **15 working days** of its issue. This will be treated as a **Stage 1 review**.

If you are not satisfied with the outcome of the stage 1 review, you may request a **Stage 2 appeal**. This request must be submitted **within 21 working days** of receiving the response from the stage 1 review.

Further details on our review and appeal process are available at: [Natural Resources Wales / Appeal a regulatory decision from Natural Resources Wales](#)

Concerns Not Related to the Content of this Compliance Assessment Report Form

If your concerns do not relate to the content of the Compliance Assessment Report form, you should first attempt to resolve the issue with the regulating officer or their line manager.

If the issue remains unresolved, please contact our **Customer Contact Team**:

- **Telephone:** 0300 065 3000 (Monday to Friday, 09:00–17:00)
- **Email:** enquiries@naturalresourceswales.gov.uk

They will provide details on how to escalate your concerns through our **Complaints and Commendations procedure**.

If you are dissatisfied with our response, you may contact the **Public Services Ombudsman for Wales**:

- **Telephone:** 0300 790 0203
- **Email:** ask@ombudsman.wales

Welsh Language Standards

We are committed to establishing Natural Resources Wales as a naturally bilingual organisation. We will provide compliance reports in your preferred language.
