How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

### 2. What action is required?

Criteria	Action needed	Complete by
W4B	Provide all missing Materials Facility sampling returns detailed within this report by 10/05/2026	10/05/2026
W4B	Please provide to NRW a copy of the site sampling methodology by 31/05/2026	31/05/2026

Compliance criteria codes are listed in the 'Important information' section below.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

### 4. Details of our assessment

This assessment has been carried out remotely and the site has been assessed against its obligations as a Materials Facility under The Environmental Permitting (England and Wales) Regulations 2016 as amended by The Environmental Permitting (England and Wales) (Amendment) Regulations 2023, paragraphs 7 (1) and 7 (2) of Schedule 9. The regulations require Material Facilities to provide a report to the regulator in the form specified by the regulator, within 1 month of the expiry of each 3 month period.

According to our records, we have not received Material Facility sampling returns for the following period:

Quarter 3 ( July-Sept) 2025

**As a result of this non-compliance you have been scored (C4)**

**ACTION:** You are required to submit the outstanding Material Facility sampling returns listed above and put in place procedures to ensure that all future returns are completed and submitted in time. Failure to meet future return deadlines may result in escalation of our scoring category for such a breach and may also result in further action.

**The required timescales for submissions are below:**

Quarterly Returns Period Return Submission Deadline

Quarterly Returns Period	Return Submission Deadline
Q1 - 1st January to 31st March	30th April
Q2 - 1st April to 30th June	31st July
Q3 - 1st July to 30th September	31st October
Q4 - 1st October to 31st December	31st January

Please submit missing Material Facility sampling returns to the following email address:

[waste.returns@naturalresourceswales.gov.uk](mailto:waste.returns@naturalresourceswales.gov.uk)

If you have not received any waste material or removed any specified output material at all during a quarterly reporting period, **you must still complete the declaration on the Facility Information tab in a Material Facility sampling return and submit this to us. Where applicable, “Yes” is required to be selected in the “Nil Return” drop down box to declare that no waste material was received, no specified output material was removed and subsequently no sampling was undertaken during the period.**

### **Sampling Methodology**

Under The Environmental Permitting (England and Wales) Regulations 2016 as amended by The Environmental Permitting (England and Wales) (Amendment) Regulations 2023, paragraphs 6(1)(b) and 6(h) require you to record and retain a written sampling methodology.

**ACTION:** In line with Paragraph 6(2), please provide a copy of your sampling methodology to Natural Resources Wales (NRW) by 31st May 2026. Your sampling methodology may be in a written or electronic format. At this stage no score has been applied for the sampling methodology having not been provided. Failure to meet the deadline provided may result in a score being applied and may also result in further action.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action required for the permit condition assessed to avoid non-compliance. No non-compliance scored at this time
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

**How we use assessment scores**

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

**If your assessment result in Section 1 is suspended, what does this mean?**

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
