

FORM WRA: Applicant details and proposal outline

Application type and fee

Please generate a reference number. It should start with "WR" followed by your organisation or company name and today's date in four-digit format (DDMM) without spaces or punctuation.

Example: WRNATURALRESOURCESWALES1101

Please use this use this number throughout this application. This reference number can also be used for your BACS reference if paying electronically.

WR-PYLE&KENFIG-GOLF-CLUB-260325

For the application types listed, complete this form and/or the relevant additional forms named below. Tick the type of application you are applying for. Please refer to our Find out if you need a licence web-page (opens in new tab) for an explanation for the different licence types. If your proposal involves multiple licence types, tick all that apply.

See our Charges for abstraction and impoundment applications (opens in new tab) web page for details of application fees and how to pay.

Technical variation of an abstraction licence. Also complete form WRD.

Please provide existing licence serial number, if applicable

21/58/33/0010/R001

Please indicate how you wish to pay your application fee. If paying by BACS, please quote the reference number created in question 1 when setting up the bank transfer.

If paying by cheque, please ensure you add the six digit cheque number below.

BACS

Please add your BACS reference below

For abstraction licence applications where you are the occupier or have rights of access, please also provide the additional evidence as outlined above.

Please tick here to show that you have done this.

For expected rights of access, please also provide the additional evidence as outlined above.

Please tick here to show that you have done this.

Pre-application number

Have you undertaken a pre-application enquiry or had any previous discussions with us?

Yes

Provide reference number or staff member's name

PAN-024163 Kristina Jenkins and also PPN- 0157 Kayleigh Miles (Variation Confirmation)

Remediation work

Is this proposal as a result of a Restoring Sustainable Abstraction programme or other work requested by us?

No

Source of supply

State where you intend to abstract from

Groundwater. e.g. Borehole, mine, unlined excavation

Give Groundwater Investigation Consent number if applicable

WA-058-0033-0007

Groundwater impact assessment report

- File: HYG1303 R 260302 SG Pyle & Kenfig GC Pump Test Report-compressed.pdf - [Download](#)

Provide a 12 digit National Grid Reference for the proposed or existing abstraction or impoundment point (e.g. ST 19057 76826)

SS 80981 80281

Source of supply (name of watercourse or aquifer)

Oxwich Head Limestone

Site name / reference
(e.g. Tŷ Mawr Farm)

Pyle & Kenfig Golf Club

Proposal summary

Please provide an outline of your proposal, including any sketches.

As a guide, you should include: a description of the activities which (will) take place at your site, the means of abstraction/impoundment proposed, if the proposal is related to another licence or permit (i.e. an Environmental Permit to Discharge Water) and details of any survey work undertaken. For changes to existing licences, summarise the changes proposed. Sketches or photographs that will aid our understanding of your proposal can be uploaded below.

The existing groundwater abstraction license (REF:21/58/33/0010/R001) allows for the licensed abstraction of 28,000m³ of groundwater per season, abstracting from an existing site borehole not exceeding 41 metres in depth. The season covers the period 1st March to 31st October over which time groundwater will be used for irrigation of golf course tees and greens only.

With the variation we would wish to have an option through the rest of the year 1st November – 28th February to abstract a nominal volume of water to keep site system operational.

The golf club are now adding fairways irrigation (see attached plan) across the golf course over and above the existing irrigation which has been just for the tees and greens. This will require additional groundwater bringing the daily total maximum to 480 m³/day. Groundwater abstracted will be stored in a new above ground storage tank located adjacent to the existing site abstraction borehole.

A GIC has been issued and works progressed in accordance with this consent as attached. The new borehole has been advanced and installed into the Oxwich Head Limestone and tested. We are seeking an abstraction of a maximum 8m³ per hour from the existing borehole and 12m³ per hour from the new abstraction borehole as set out in the attached HIA Report.

Water is to be used to irrigate the Pyle & Kenfig Golf Course

Existing Borehole

8 cubic meters per hour

192 cubic meters per day

New Borehole

12 cubic meters per hour

288 cubic meters per day
