

Apply to discharge condition(s) and/or monitoring approvals required by your marine licence

Who is completing this form?

Indicate who is completing this form
Licence holder

Your project

What is the name of your project?
Hynet Carbon Dioxide Transportation and Storage Project – Liverpool Bay

Give us your marine licence reference number (this can be found on the front of your marine licence):
CML2365

Licence holder details

Please complete the licence holder details	
First name:	Lamia
Last name:	Gherbi
Position in company:	Environmental Advisor
Company or trading name:	Liverpool Bay CCS Ltd
Telephone number:	07771501100
Email:	Lamia.Gherbi@eni.com

Agent details:

Does the licence holder wish to be included in all correspondence?
Yes

List the condition(s) of your marine licence

List the condition(s) of your marine licence that you are looking to discharge, including any monitoring reports. Please include the condition number and condition text.

3.19 Cable Specification and Installation Plan (CSIP)

3.19.1 The Licence Holder must submit a CSIP to the Licensing Authority for written approval at least 4 months prior to commencement of Licensed Activity 1 (cable installation and protection). No Licensed Activities relating to Licensed Activity 1 may be undertaken prior to written agreement from the Licensing Authority. The CSIP must include the following information unless otherwise approved by the Licensing Authority (parameter envelopes should be provided if necessary):

- (i) Technical specifications;
- (ii) Location, including outlines of cable crossings, burial, and surface laid sections;
- (iii) Timings, including duration of works;
- (iv) Burial risk assessment to ascertain burial depths and cable laying techniques including cable protection. The assessment should identify any cable protection that exceeds 5% of navigable depth referenced to chart datum. In the event that any area of cable protection exceeding 5% of navigable depth is identified, the details of any steps to be taken to ensure existing and future safe navigation is not compromised, should be presented;
- (v) Proposed locations, types, and quantities of cable protection to be deposited;
- (vi) Installation and cable laying techniques;
- (vii) Cable crossing armouring methodology;
- (viii) Installation machinery failure contingency plan;
- (ix) Transport management plan;
- (x) Location, type, and quantity of any wet-stored cabling and/or cable protection and the proposed duration of the wet storage, and
- (xi) Proposals for monitoring offshore cables including cable protection during the operational lifetime of the authorised scheme which includes a risk based approach to the management of unburied or shallow buried cables.

3.19.2 The Licence Holder must ensure that any actions outlined in the CSIP detailed in condition 3.19.1 are implemented as approved in writing by the Licensing Authority. Any proposed changes to the actions outlined in the documents must be submitted to, and approved in writing, by the Licensing Authority prior to any changes being enacted.

Please provide a description of your request e.g. Construction Environment Management Plan submitted for approval prior to commencement of works/ submission of annual monitoring report for approval

We are pleased to submit the Cable Specification and Installation Plan (CSIP) for Licenced Activity 1 (cable installation and protection) and provides the information to fulfil the requirements of Marine Licence CML2365: Condition 3.19.

This CSIP provides information relating to cables, including a construction programme, the final technical specification of the cables, a detailed installation plan, including a Cable Burial Risk Assessment (CBRA), cable protection measures, and monitoring offshore cables.

List all supporting information submitted for this request
