Dear Mrs Riley

**We need more information about your application**

**Application reference: PAN-030347**

**Operator: VDC CWL12 Limited (Transferee) and Vantage Data Centers UK Limited (Transferor)**

**Site Address: Newport Data Centre, Imperial Park, Celtic Way, Marshfield, Newport NP10 8B**

Thank you for your application received on 03/09/2025.

I need to ask you for some more information before I can do any more work on it. Please would you;

- Provide an air emission point plan in a colour that is not green (*Reason: as the site is splitting, we will need a different colour to distinguish the two site, as done with the overall site plan*).
- Provide operating techniques for both parts of the site (one for CWL11 and another for CWL12). *Reason: the operating techniques will need into the new permit and the existing one to reflect the operations of site (CWL11 and CWL12)*.
- Provide a more detailed summary of the environmental management system (EMS) for CWL12 and how it meets the requirements.
- Provide any details or potential amendments for the site specific EMS for CWL11 as a result of partial transfer.

**We can not process the following request under a transfer application;**

- Unplanned operation, e.g. where generators are triggered to operate due to a fault – *Reason, this change comes under a variation and is out of scope of the partial transfer application. The only changes that can be made to a permit through a partial transfer are as a result of the transfer itself and not operational changes in addition to the transfer. While the email to you dated 08/12/2025 stated that additional information could be accepted this was in context of the variation PAN-030468 and*
