Type of assessment carried out: Report/Data Review,

Reason: Routine.

On 31/01/2026.

Parts of permit assessed: EDM Monitoring

NRW Lead Officer: Peter Jones.

Report sent to: CARS mailbox, CARS mailbox, on 16/04/2026.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Non-compliant permit condition
WQ-C1 - Water Quality - Emissions and monitoring - Emissions to water	C4 No impact	3.1.1

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
WQ-C1	<ol style="list-style-type: none"> Please explain what action you will take to increase the EDM operational time to ensure compliance with the permit conditions. Please explain the root cause for non-compliance with EDM operational time. 	19/07/2026

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

You are non-compliant with your permit.

At this time, we are issuing you with a warning for the non-compliance recorded above. Warnings may influence future enforcement response for continued or further non-compliance.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

During a routine compliance assessment check that we have carried out on 17 April 2026 it was noted that the EDM operational time for this asset was less than the minimum of 90%.

The operational time provided in the 2025 EDM Annual return for BW1404001, No 11 Nr Glanyrafon Cwmilly CSO, was 75.06%.

Condition 3.1.1 states that:

The operator shall, unless otherwise agreed in writing by Natural Resources Wales, undertake the monitoring specified in the following tables in schedule 3 to this permit:

(a) point source emissions specified in tables S3.1 and S3.4.

This contravention of the permit is classed as a Category 4 breach.

Category 4: when the EDM is operational for 60.01-89.99% of the calendar year. It's reasonably foreseeable that that there will be no environmental impact as the % indicates that the overflow is receiving reasonable monitoring and that the operator is likely to have reacted to any operational issues in a timely manner.

Actions – please carry out the actions specified above to comply with the permit condition.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):
