3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

You are non-compliant with your permit.

At this time, we are issuing you with a warning for the non-compliance recorded above. Warnings may influence future enforcement response for continued or further non-compliance.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Initial WATPOL report: Milford Haven WwTW has experienced a valve failure within the treatment process which failed to open as required. This put the biological treatment out of sequence and resulted in partially treated effluent leaving site. The loss of treated effluent occurred between 08:30 and 13:30. Pollution Tech is on route to site to take samples, and ME&I are investigating the cause of the valve failure to prevent a reoccurrence. The site is currently being monitored and further updates will be provided.

Final WATPOL report: *15/04/2026 09:20, DCWW Operator - Final : Update and Final - The site has continued to be monitored with no further issues occurring, site has been operating as designed following the valve fault being rectified yesterday afternoon. Sample taken this morning Turb 16.62, TSS 16.25.*

Owing to partially-treated effluent leaving site, with insignificant environmental impact, this will result in a warning.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):
